Higher wage Could find work

<sup>\*</sup> Small sample size in RSW/RSS. Results shall be interpreted with caution. No successful case of RSS, using proportion of workers still in the industry in the tel survey and DAR>0 data as reference.

\*\* Respondents did not mention clearly if they are working for building construction or civil construction so the numbers cover both trades.

\*\*\* The survey data and registration figures do not include those registered as Carpenter (Formwork) (Mastcr)
