

Construction Revolution Best with Greatest Potential

创·造·新价值

Driving new value Moving the world

CIMC was founded in Shekou, Shenzhen

- Founded by Mr. Yuan Geng in 1980.
- A joint venture of China Merchants Group and Denmark East Asiatic Company.
- Born with international and marketize gene.

Diversified International Industrial Group (Manufacture + Energy + Logistics)

Logistics Equipment and Services

Containers

RMB25billion

Vehicles

RMB19.5billion

Logistics Service

RMB7.129 billion

Airport Facilities

RMB3.213 billion

Energy Equipment and Services

Energy, Chemical and Food Equipment

RMB11.8 billion

Offshore

RMB2.5billion

Others

Finance

RMB2.4
billion

Industrial & City Development

RMB1000 million

Modular Building

RMB800 million

*Data from *CIMC 2017 Annual Report*

Global Leading Airport Facilities

Orders of boarding bridges rank No.1 in the world;
production cover more than 200 airports in the world.

Main Products: airport passenger boarding bridge,
airport baggage handling system,
air cargo handling system,
automatic warehouse logistics system,
automatic parking system, etc..

China's Leading Offshore Equipment EPC Enterprise

- In the South China Sea, the ultradeep water semisubmersible drilling rig "Blue Whale No.1" independently designed and built by CIMC has played a vital role in successfully collecting samples of combustible ice in China for the first time.
- Main Products: semi-submersible drilling rigs, jack-up rigs, offshore engineering support ships, high-end yacht, etc..
- Business Platform: operated 3 construction bases and 3 R&D centers globally, have operation service and financial service.

Revolutionary Construction Solution CIMC Modular Building System

- Accumulated over more than 30 years of manufacturing container experiences and patented technologies
- Core Value: Pre-finished in the factory, Erection on site like Lego, Construction time 50%-70% reduced.

TRADITIONAL CONSTRUCTION CHALLENGES

Construction Progress Slow

Design Not Efficient, Long Period

Construction Over-Time, Over-Budget

Construction Waste

Interruption To Local Community

High Skill Labor Shortage

CIMC Modular Building Advantages

- **Construction Period:** 90% of room pre-finished in the factory, on site construction time 50-70% reduced
- **Superior performance:** Excellent anti-seismic performance and reliable module quality control, guarantee the construction safety.
- **Building Standard:** Fit UK, America, Europe, China building Codes
- **Other Advantages:** Modules can be travelled by sea and road to anywhere in the world. Customized module design, self supporting system to 30 levels. Adaptable for all external façade system

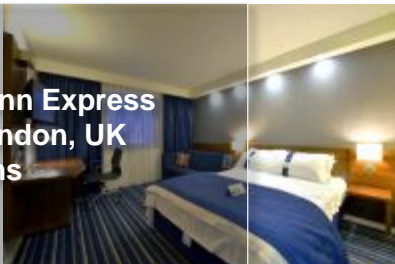

Strategic Relationship With International Hotel Brands

Deliver over 35,000 rooms for developer , builder and world-class universities all over Europe, USA, Australia, Japan ect, mainly are hotel and student accommodation.

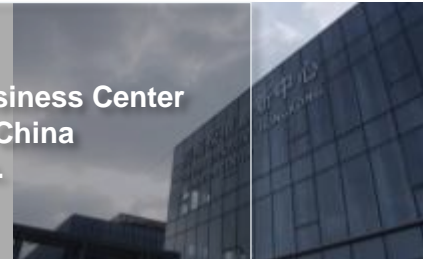

**Holiday Inn Express
Excel London, UK**
204 rooms

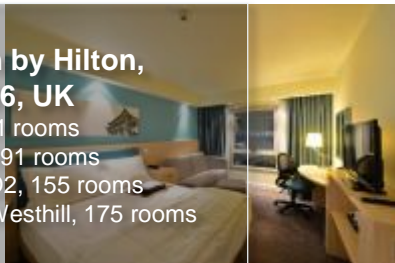

**Newcastle Student
Accommodation, UK**
191 rooms

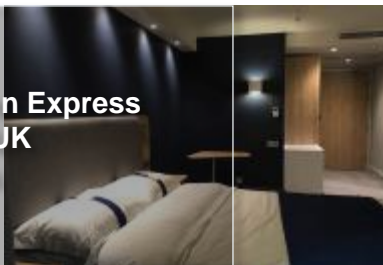

**Qianhai Business Center
Shenzhen, China**
30,000 sqm.

**Hampton by Hilton,
2014-2016, UK**
Bristol, 201 rooms
Docksides 191 rooms
Aberdeen D2, 155 rooms
Aberdeen Westhill, 175 rooms

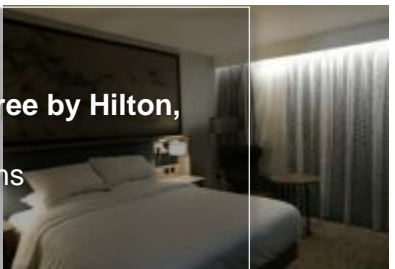

**Holiday Inn Express
Trafford, UK**
220 rooms

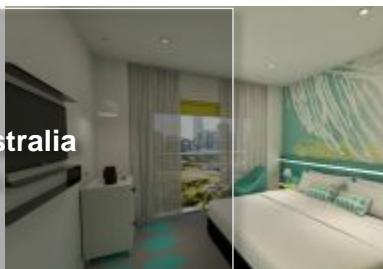

**Glasgow Student
Accommodation, UK**
398 rooms

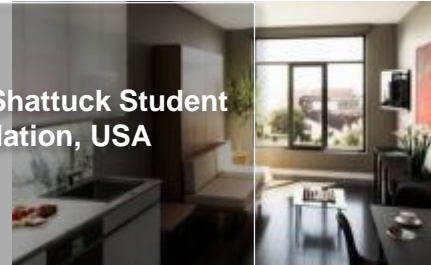

**DoubleTree by Hilton,
Hull, UK**
143 rooms

**Ibis Style
Perth, Australia**
252 rooms

**California Shattuck Student
Accommodation, USA**
24 rooms

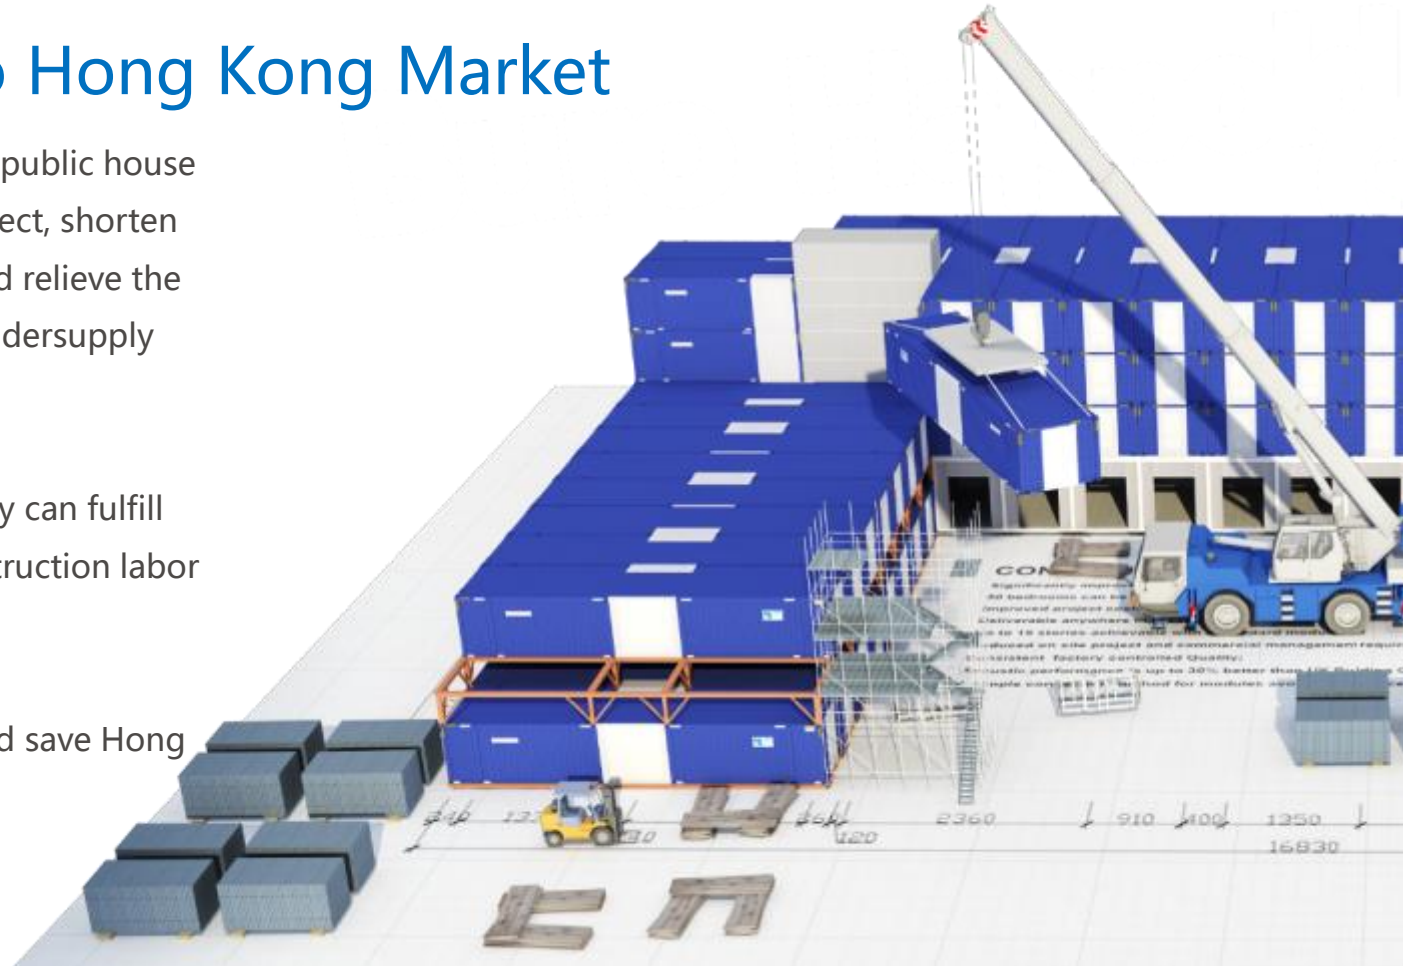

CIMC Modular Building System Can Achieve

Global Product Developed By Global Team
UK-Design & Engineering
China- Manufacturing & Procurement
Local-Construction Management

Our Value To Hong Kong Market

- Apply to Hong Kong public house or rented apartment ect, shorten the launch period and relieve the Hong Kong house undersupply situation.
- Pre-finished in factory can fulfill the Hong Kong construction labor shortage situation.
- Less building cost and save Hong Kong public expense

Participating Hong Kong Construction Innovation

中国国际海运集装箱（集团）股份有限公司

CHINA INTERNATIONAL MARINE CONTAINERS (GROUP) LTD.
