

Design and Supply of Demonstration of Energy Efficient Outdoor Lighting - Sponsorship Agreement Signing Ceremony

ZCB is striving to be a role model in reducing carbon emissions. In this regard, ZCB will upgrade its outdoor lighting to reduce electricity consumption while continuing to provide a relaxing leisure place in Kowloon Bay.

With the kind sponsorship from Guangzhou Hailin Electronic Technology Co. Ltd. and its Hong Kong office Raydiant Arc Ltd. the ZCB landscape lighting will be converted to be powered by localised solar panels and solar cells. At the same time, eco-lighting will be added to the roof and facade of ZCB to highlight the architectural outline of ZCB and to showcase the energy efficient decorative lighting.

A sponsorship agreement signing ceremony was held at ZCB on 27 February 2014. We thank Guangzhou Hailin Electronic Technology Co. Ltd. and Raydiant Arc Ltd. for their generous support.
