

## **ZCB Technical Seminar: Air Movement for Energy-efficient Comfort in Conditioned Spaces**

### **INVITATION**

You are cordially invited to " ZCB Technical Seminar: Air Movement for Energy-efficient Comfort in Conditioned Spaces "to be held at ZCB on Tuesday, 28 July 2015.

This seminar will help participants learn about HVAC design strategy that pairs elevated air speeds with traditional air conditioning in order to achieve energy savings. The presentation will describe the additional design benefits from minimizing ductwork, lowering HVAC costs, improving ventilation rates and reducing condensation, as well as explain significant energy savings potential from de-stratifying a large open space.

#### **About the speaker**

Mr. Jeff Klein

LEED Green Associate, MAHS, Business Development Manager, Asia-Pacific, Big Ass Fans, Architect, Engineer, Design Specialist

Jeff has delivered lectures and presentations all over the US and Internationally, and acted as a consultant to some of the biggest international companies and engineer/design firms on how to achieve energy-efficient comfort and sustainable design through the use of highly engineered air moving equipment.

#### **Seminar details:**

Date: Tuesday, 28 July 2015

Time: 5:00pm to 6:00 pm – Cocktail Reception & Free Tour of ZCB

6:00pm to 7:00 pm – Seminar

Venue: Multi-purpose Hall – ZCB, 8 Sheung Yuet Road, Kowloon Bay

Fee: Free of charge

Enquiries: 2100 9045/ 2100 9036 or [smiu@hkcic.org](mailto:smiu@hkcic.org)/ [yanip@hkcic.org](mailto:yanip@hkcic.org)
