| PBS18-043 | EcoDomus | Global Virtual Design and Construction Limited | Website: www.globalvdcl.com Tel: 31990388 | Subscription | Integrated Platform - EcoDomus brings together a host of software for easy gathering and aggregation of information as it is a highly flexible system. Because of this, the platform can provide accurate information and actionable insights that are appropriate for your needs. Scalable Solution EcoDomus is a scalable software suite. It can adapt to support the Internet of Things and Big Data solutions. As such, you can enhance your data collection from a broader range of information sources. Site-Based Work - EcoDomus empowers your ambulatory workforce, as the software has mobile and web interfaces that support on-site working. With this, your mobile employees can be productive and can access data relevant to them to help them make intelligent decisions. Best Practices Implementation - To ensure that your assets are profitable for a long time, you have to be certain that your employees and partners observe best practices when it comes to your facilities. EcoDomus enables you to make sure of that by providing you with the related information on one window | EcoDomus | Single | 1 year | 1. (Cloud Version) - \$13,572.00 2. | PBS19-004 | Hong Kong BEAM Plus Assessment Tool | Global Virtual Design and Construction Limited | Website: https://www.globalvdc.com Tel: 31990388 | Perpetual License | Hong Kong BEAM Plus Assessment Tool is to provide BIM-enabled BEAM evaluation tool for construction industry in Hong Kong to do a quick and accurate BEAM evaluation for buildings such as commercial, residential or mixed developments. It is an OPEN BIM Add-on integrated with industry recognized, ASHRAE compliant Energy Evaluation Tool – Eco Designer STAR. With EcoDesigner STAR, building systems can be precisely modeled and assigned to the Multiple Thermal Block Building Energy Model, to produce Detailed Output that includes Energy Demand, Energy Consumption, Primary Energy, Carbon Footprint and Building Energy Performance Rating. The software module used for the dynamic energy simulation complies with ANSI/ASHRAE Standard 140-2007 and the performance rating functionality complies with ASHRAE 90.1-2007, so EcoDesigner STAR can be used up to the detail design phase. It can evaluate all six aspects under HKGBC BEAM Plus New Building V1.2 Guildlines: -Site Aspect, Materials Aspect, Energy Use, Water Use, Indoor Environmental Quality, Innovation | Single or Network License | Single or Network License | N/A | \$13,450.00 |
