精彩活動將會圍繞四個範疇
The various kinds of activities will focus on these 4 categories

⭐ **任務：擊倒碳排放，實現「碳中和」**
Mission: Reduce carbon emission. Achieve carbon neutrality.

碳足印與綠色生活
Carbon Footprint and Low Carbon Living

不同的生活模式產生不同程度的碳足印，我們習以為常的生活或會對地球帶來沉重負擔。了解更多低碳綠色生活，於日常生活實踐「碳中和」。

The difference of lifestyle produces different scale of carbon footprint. We may not notice how our living routines affect the health of the Earth. Let's learn more about low carbon living and join hands to achieve carbon neutrality.

可持續發展-挑戰與機遇
Sustainable Development - Challenges and Opportunities

以無損未來生活質素為前題，可持續發展對於我們及下一代相當重要。務求在環境、社會和經濟之間取得平衡，可持續發展會遇到甚麼挑戰？又可以如何應對？

For the purpose of extending the existing living environment, sustainability has an important role towards it. What challenge would this mode of development face, in order to meet the balance between environmental, social and economic needs? How can we tackle the challenges ahead?

循環再造與升級再造
Recycling and Upcycling

試想想回收箱中的物件如何回收循環，並再造重生？配合科技進步，回收物料有著無限潛力。近年興起的升級再造旨在提升回收物的價值，究竟如何有效達致減廢目標？

The usage of recyclable materials could be full of possibilities, especially under the adoption of advanced technology. Upcycling has also been a wave recently, aiming at raising the value of recycled items. How can we reduce waste efficiently by using the mentioned methods?

能源與發電
Energy Generation

電力與我們的生活密不可分，而能源組合和發電方式就直接反映在碳排放上。化石燃料與可再生能源就「碳中和」目標，有甚麼作用呢？

Electricity has a tight bonding to our living. Moreover, the production of energy and electricity has great impact towards carbon emission. Let's explore how fossil fuels and renewable energy relate to carbon neutrality.
