

Dear Industry Friends,

**Third Stage of Vaccine Pass Arrangement at Construction Sites  
Vaccinated with Three Doses with Effect from 31 May**

Thank you for your support, which in turn, the Vaccine Pass arrangement can be fully implemented on all construction sites in Hong Kong since 14 March 2022.

The Government will implement the stage three of the Vaccine Pass starting from 31 May. Except for the exempted persons <sup>2</sup>, persons who wish to enter specified premises (e.g. restaurants) will be required to have received three doses of COVID-19 vaccine by then (unless the persons received the second dose within six months, or the persons are recovered COVID-19 patients <sup>1</sup>).

To tie in with Hong Kong's anti-epidemic measures, it is decided that the Vaccine Arrangement at construction sites should be updated after a discussion between the Construction Industry Council and representatives from the industry, with the aim of providing effective protection to industry practitioners and meeting the latest vaccination requirements of Vaccine Pass implemented by the Government: from 31 May onwards, except for the exempted persons <sup>2</sup>, all construction workers, site personnel and visitors are required to have received **three doses of COVID-19 vaccine** to enter any construction sites (unless the worker received the second dose within six months, or he/she is a recovered COVID-19 patient <sup>1</sup>).

[Note: The "LeaveHomeSafe" mobile app will also be updated on 31 May in order to identify whether the persons entering the premises fulfil the relevant requirements. If a blue QR code is displayed after scanning the "LeaveHomeSafe", it means that the worker meets the vaccination requirements; if the display is labelled as red, it means that the worker does not meet the vaccination requirements.]

The implementation dates of Vaccine Pass arrangement at construction sites are as follows:

Stage	Date	Details
First	14 March	All construction workers, site personnel and visitors are required to have received <b><u>at least one dose of COVID-19 vaccine</u></b> to enter any construction sites.
Second	14 April	All construction workers, site personnel and visitors are required to have received <b><u>at least two doses of COVID-19 vaccine</u></b> to enter any construction sites.
Third	31 May	All construction workers, site personnel and visitors are required to have received <b><u>at least three doses of COVID-19 vaccine</u></b> to enter any construction sites.

<sup>1</sup> For those whose second dose was received within six months, or who were recovered from COVID-19, please refer to the latest guidelines on vaccination requirements from the Government ([https://www.coronavirus.gov.hk/pdf/vp\\_t1\\_ENG.pdf](https://www.coronavirus.gov.hk/pdf/vp_t1_ENG.pdf))

<sup>2</sup> For exempted persons including those who are unsuitable for vaccination due to health reasons with relevant proof from a doctor please refer to the latest guidelines from the Government ([https://www.coronavirus.gov.hk/pdf/vp\\_t2\\_ENG.pdf](https://www.coronavirus.gov.hk/pdf/vp_t2_ENG.pdf))

Please appeal to all construction workers, site personnel and those who are planning to visit construction sites to receive the third dose of COVID-19 vaccine as early as possible. In addition to the Community Vaccination Centres, they could also get vaccinated with private doctors or clinics under the Vaccination Programme free of charge. Please visit the Centre for Health Protection (CHP)'s website for details about the vaccination and the list of doctors / clinics enrolled in the Vaccination Programme: [www.covidvaccine.gov.hk/en/VSS](http://www.covidvaccine.gov.hk/en/VSS)

Let's get vaccinated to protect ourselves and our families.

Best regards,  
Construction Industry Council
