3.0	14 Feb 2024	<ul style="list-style-type: none"> <li>• New – Upload Device Log</li> <li>• New – Update Notification</li> <li>• Delete – Auto Download Updated Version</li> <li>• Update - About</li> </ul>

## 1. CIC Daily Attendance Record Application ( CIC DAR APP )

CIC DAR APP is an Android mobile application.

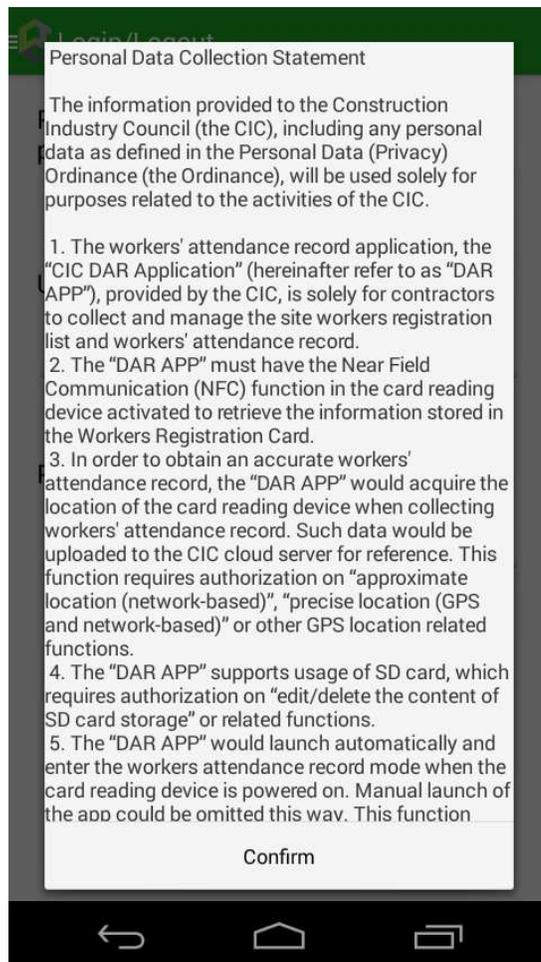

Contractors may use the CIC Android Card Reading Device (“CIC Device”) or appropriate commercial Android Card Reading Device (Tested Mobile Device List on the CIC Website) by installing the CIC DAR APP to read worker’s name and registration number from Construction Workers Registration Cards (CWR Cards) and to collect his/her attendance record when reporting duty on site.

Contractor can register the construction workers to a specific contract through the CIC DAR APP, which help to manage the Daily Attendance Record of a construction site.

### 1.1. Login / Logout

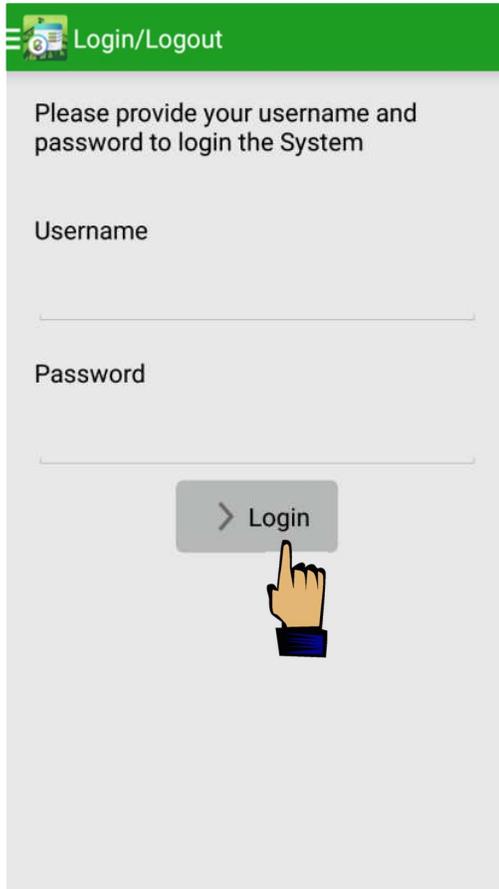

#### 1.1.1. Personal Data Collection Statement

- When the CIC DAR App is opened for the first time, the Personal Data Collection Statement will be shown as below. Tap **【Confirm】** to continue.

### 1.1.2. Login

- Enter your CIC Username and Password
- Tap **【Login】** button to login CIC DAR APP.

Note: CIC DAR APP is set as auto-start when the device is switched on. User can disable auto-start by going through the procedures described in section 1.1.6.5 User may also tap the “” icon displayed on Home Screen of device to open the App.

**Attention:** The CIC device and the DAR app can collect DAR via CWR card tapping in offline mode (i.e. no network connection). However, a stable network connection is deemed necessary when conducting device registration, data synchronization, heart beat function or the DAR App first login of each user. Failure to provide a stable network for these tasks may interfere the tasks' completion.

### 1.1.3. Device Registration

Contractors are required to use a registered card-reading device for processing the worker registration and DAR submission of the construction site. Registration can be completed through the CIC DAR APP.

- After the first login, setting screen will be automatically shown. Otherwise, tap “**Setting**”

- Enter the device name under “Device **Name**”, and select contract under “Contracts”, then tap “Register” to proceed.
- The registration information including DAR App version (version 2.3 only) will be uploaded to CIC cloud if the card-reading device is connected to the internet.
- Contractor can login to “Construction Workers Registration Gateway (CWRG)” to check whether the device has been successfully registered to the selected contract. (Please refer to section 2 of the User Manual – “ Construction Workers Registration Gateway (CWRG) ”)

**Note:** The contractor must complete the device registration process mentioned above before processing the worker registration and DAR submission.

**Note:** In Android 10, MAC randomization is enabled by default. Contractor should use the factory MAC for device registration. When a device is connected with any Wi-Fi network, privacy setting should be set as “Factory MAC” as below.

#### 1.1.4. Device Deregistration

Contractor can detach their registered device(s) from contract via DAR App. The deregistration procedure is shown below:

- Tap “ **Setting** ”

- Tap “Detach **Device**”, App will be logged out automatically after all information is uploaded to the CWRG.

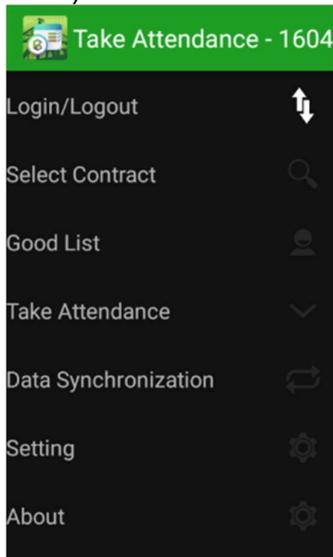

- The device will be detached in the contract afterwards.

**Note:**

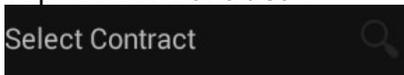

Same device name cannot be reused in same contract after device de-registration. If device is lost, user can change the login password and contact CIC helpdesk to detach device. The lost device will be failed to connect server within 3 hours.

### 1.1.5. Contract Selection

- To change selected contract, tap  to open the left menu (as shown below) :

- Tap “**Select Contract**”.

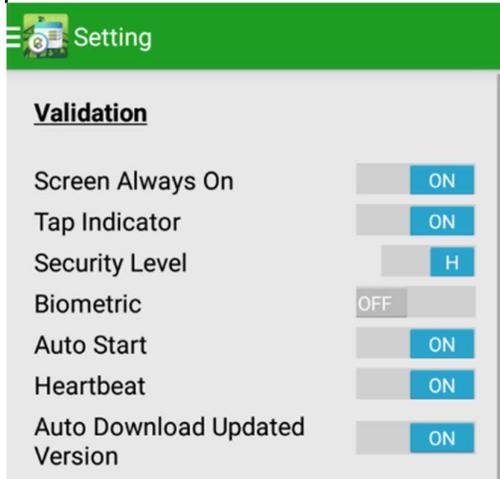

- The CIC DAR APP will indicate whether the device has been registered under the selected contract.
- Tap **【Confirm】** if the details are correct. Alternatively, select contract under “**Select Contract**”.

- User should use the function mentioned in section 1.1.3 of the User Manual to register the card reading device.
- CIC DAR APP can support multiple contracts, provided users (or site admins) remember to log in/out duly for the respective contracts for DAR.

### 1.1.6. Validation Setup

Contractor can also setup validation function according to the site operation and preference.

#### 1.1.6.1. Screen Always On

- **【ON】** : Screen will be always ON when running CIC DAR App.
- **【OFF】** : Screen will not be forced to ON when running CIC DAR App.

#### 1.1.6.2. Tap Indicator

- To display the “arrows icon  on the card tapping screen above the NFC sensor , user can change the setting to **【ON】**
- This setting fits for those card readers (e.g. CIC device) with NFC sensor in front at the bottom.
- For those readers with NFC at the back, this tap indicator would not be useful and should change to **【OFF】** in the setting.

#### 1.1.6.3. Security Level

- Set as **【H】** (High) : User must input password to change other function or tapping mode
- Set as **【L】** (LOW) : No password will be required

#### 1.1.6.4. Biometric

- Set as **【OFF】** : The card reader does not integrate with a biometric authentication device
- Set as **【ON】** : The card reader integrates with a biometric authentication device and program.

#### 1.1.6.5. Auto Start

- Set as **【ON】** : CIC DAR App will auto start when the device is restarted.
- Set as **【OFF】** : CIC DAR App will not auto start when the device is restarted.

#### 1.1.6.6. Heartbeat

- This feature is only available when connected to the Internet.
- Set as **【ON】** : Return device status to CWRG.
- Set as **【OFF】** : Do not return device status to CWRG.

#### 1.1.6.7. Auto Download Updated Version

- This feature is only available when connected to the Internet.
- Set as **【ON】** : CIC DAR App will auto download updated version.
- Set as **【OFF】** : CIC DAR App will not auto download updated version.

#### 1.1.6.8. Return Signal Response Time (seconds)

- This feature is only applicable to those device(s) with biometric authentication and returned signal configured.
- The time value (in seconds) is the maximum time allowed for the integration application to send back the return signal.
- During data synchronization, attendance records (DARs) created within this period that have not yet received return signal and are not followed by other DARs of a later time with return signal will not be uploaded in this data synchronization and be processed again in the next data synchronization.
- For further information on the setup, please contact your biometric system integrator.
- Default value is 0(s).

## 1.2. Good List Management

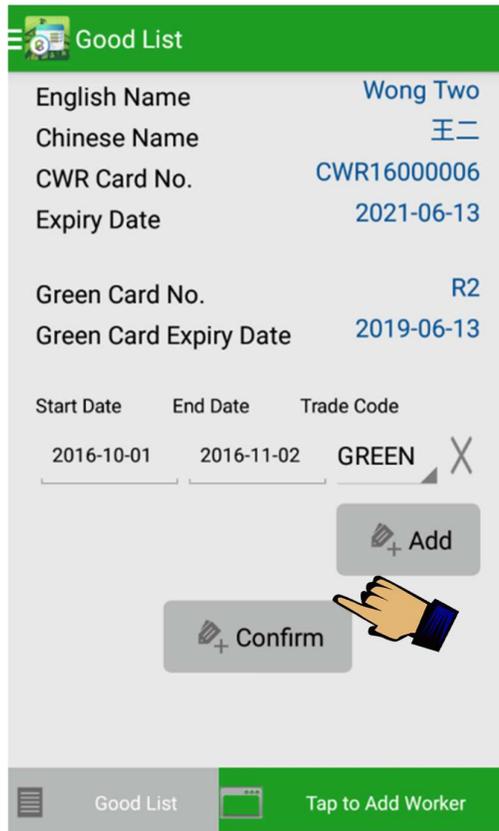

### 1.2.1. Construction Workers' Registration

Contractors shall register related construction workers on or before their first entry to the construction site with reference to the following procedure.

- Tap “**Good List**”。

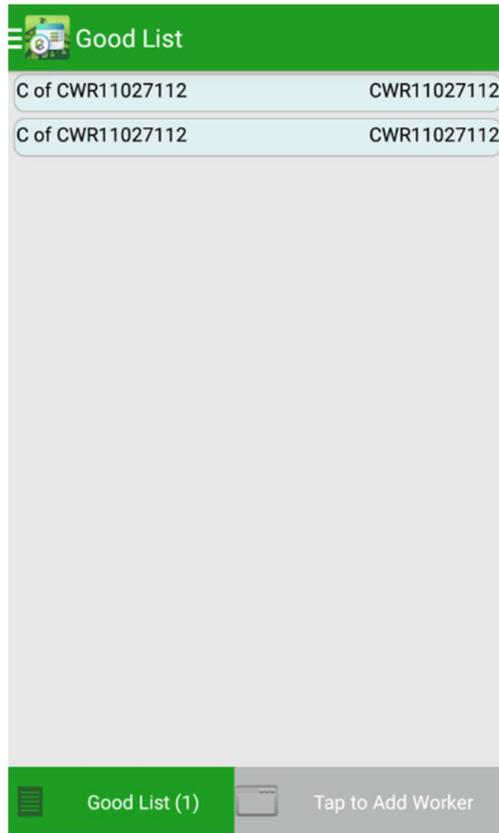

- Tap “**Tap to Add Worker**” and place the CWR card on the card-reading device to retrieve worker information from CWR card.
- Check or update the **Start Date** and **End Date** of the working period.
- Select the applicable **Trade Code**.
- To register another working period, tap **【Add】** .
- To delete the registered trade Tap **【X】** .
- After completion, tap **【Add to Good List】** to add the good list record.

	Item	Description	Remarks
1.	<b>Start Date</b>	The date of worker begins to entry the site to carry out the work of the designated Trade Division.	Format: YYYY-MM-DD
2.	<b>End Date</b>	The last date of worker may entry the site to carry out the work of the designated Trade Division.	Format: YYYY-MM-DD

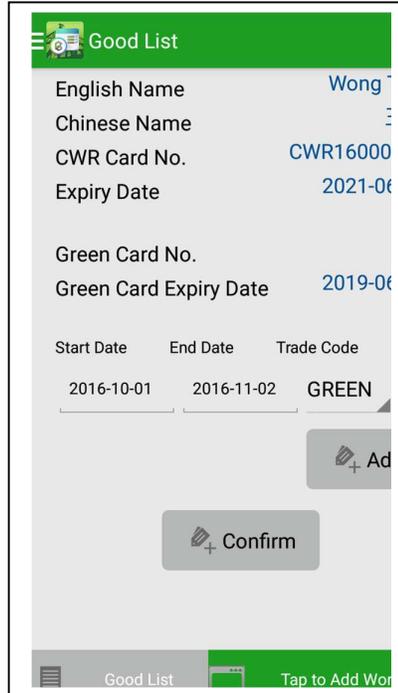

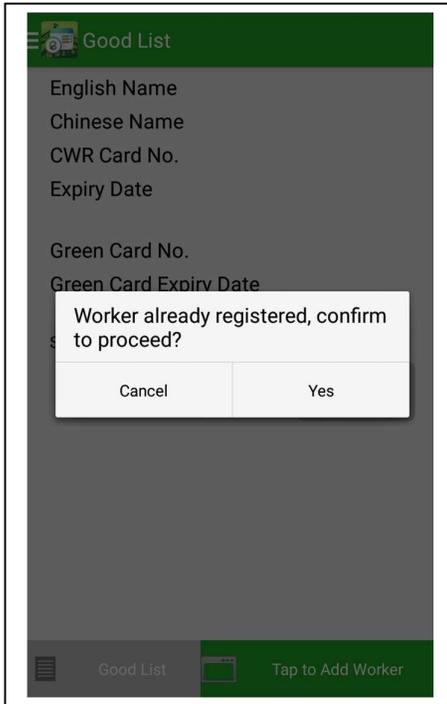

### 1.2.2. Review Workers Registration Details

- Tap “**Good List**” to review the list of registered construction workers under the contract.
- The count in the bracket (x) next to “**Good List**” indicates the number of workers registered in this Good List.

### 1.2.3. Edit Workers Registration Details

- Tap “**Good List**”.
- Tap “**Tap to Add Worker**” and then place the CWR card, which you want to edit on the card-reading device.
- As the worker was already registered in the good list, a prompt will be shown for confirmation. Tap **【Yes】** to continue.

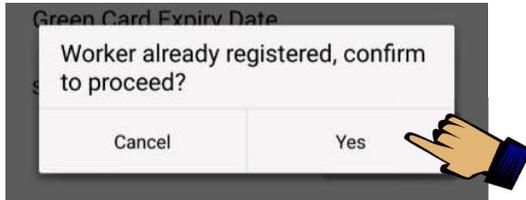

- The registered worker details would show on the screen. The following fields can be revised: “**Start Date**”, “**End Date**” or “**Trade Code**”. Tap **【Confirm】** to confirm after update.

### 1.2.4. Delete Workers Registration Details

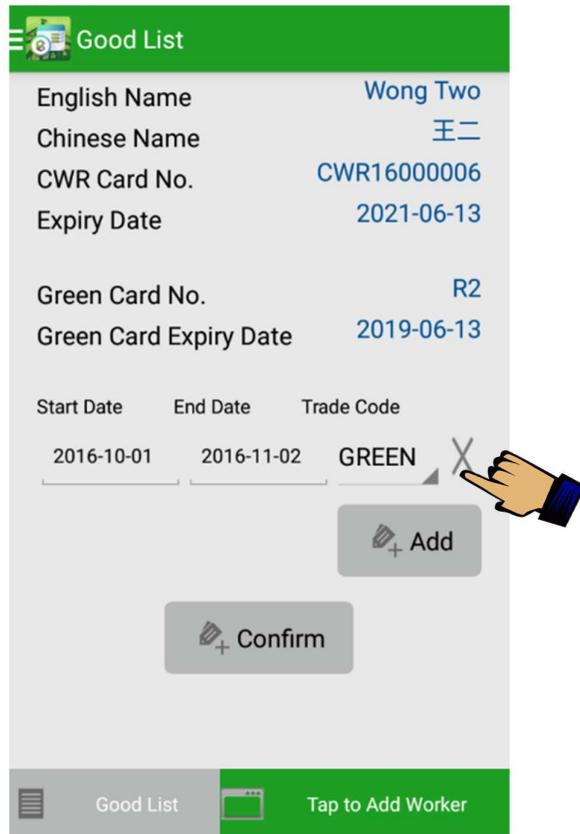

- Tap “**Good List**”.

- Tap “**Tap to Add Worker**” and then place the CWR card, which you want to delete on the card-reading device.
- Tap **【Yes】** to confirm.

- The worker’s registration details would be shown as below. Tap “ ”~~X~~ delete the corresponding working period, and then tap **【Confirm】** to delete the registered worker.

### 1.3. Capture Daily Attendance Record

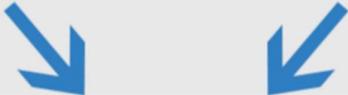

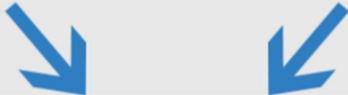

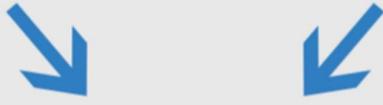

Contractors are required to use a compatible card-reading device installed with a CIC DAR APP to capture the workers' attendance when they report on and off duty on a site. The attendance information would be temporarily stored in the card-reading device. The CIC DAR APP will automatically synchronize with CIC cloud in the scheduled time if internet access is available. Contractors can also choose to synchronize the CIC DAR APP with the CIC cloud manually. If the internet connection is unavailable, DAR will be kept in the card-reading device. The DARs stored in the card reading device will be deleted after successfully uploaded to CIC cloud.

#### 1.3.1. In / Out / Tap Mode

- Tap "Take Attendance".

- Date, time, device name and version no. will be shown at the top of display
- There are three DAR capture modes in CIC DAR APP, include "IN", "OUT" and "TAP". "IN" mode is set as default.
- The DAR capture mode are as follow:

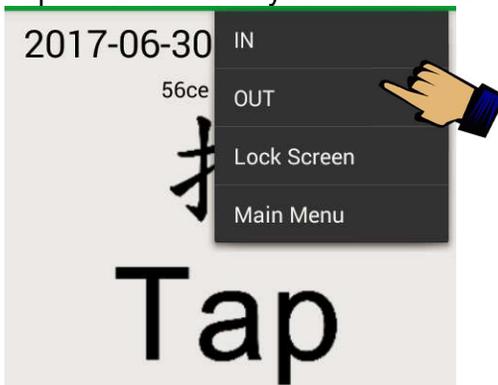

IN	OUT	TAP
2016-10-28 11:34:34 CIC 裝置 (2.0a) 入 In	2016-10-28 11:34:41 CIC 裝置 (2.0a) 出 Out	2016-10-28 11:34:47 CIC 裝置 (2.0a) 拍 Tap
 Record "IN"	 Record "OUT"	 Record "TAP"

### 1.3.1.1. Switch Capture Mode

- Tap **☰** on the upper right corner to change the DAR Mode.
- Re-enter the user password if required (User is not required to re-enter the user password when changing DAR mode if the Security Level is set as “L”).

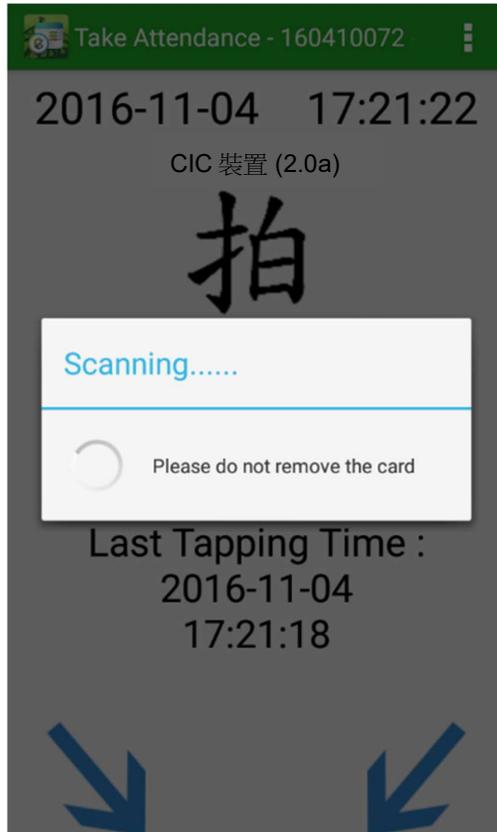

- Enter Password > Tap **Confirm** to change the DAR mode.
- Tap **Cancel** to cancel the change.
- Tap the DAR mode you would like to select.

- User may start using the app to collect DARs.
- If using CIC device, workers should place the CWR cards on the NFC sensor as indicated by the arrow icon (  ).

- CIC DAR APP would authenticate the CWR card and acknowledge the attendance record as a valid DAR raw data.
- The card reading status and time will be displayed in the middle of the screen as a reference for both user and workers.

- A successful DAR will be shown as follow:

- An invalid DAR will be displayed as shown below::

	Item	Description
1.	No Register Record	No record from the good list matches the worker's record.
2.	CWR Card Expired	The workers registration card is expired.
3.	Invalid CWR card	The following workers registration card status is defined as invalid, including lost card, void card and inactivate card

\* Only DAR App version 2.4 or above shows a red cross when tapping a void card or an inactivate card.

Previous DAR App version 2.3 or below shows a green tick when tapping a void card or an inactivate card. Those DAR will be filtered out at "DAR for verification" table in CWRG.

- In addition, the DAR mode would prompt the following messages to remind workers on the expiry date of their "Construction Industry Safety Training Certificate" (Green Cards).
- CIC DAR APP would capture the attendance as a valid DAR. CIC DAR APP will indicate the Green Card status stored in the CWR card with the following message:

 <b>Green Card Will Expire Soon</b>	 <b>Green Card Expired</b>
---	--

\* Note: "Green Card Will Expire Soon" means the Green Card will be expired within 30 days.

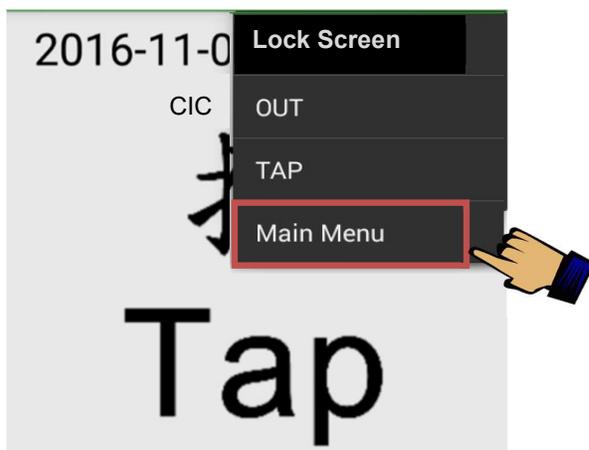

The following message will be displayed when

- A non-CWR smartcard is detected. Examples are staff cards issued by contractor;
- CIC DAR APP fails to complete the DAR verification process.

### 1.3.2. Back to Main Menu

- Tap  > input password (if required) > “Main **Menu**” back to the Main Menu. (User is not required to re-enter the user password when changing DAR mode if the Security Level is set as “L”.)

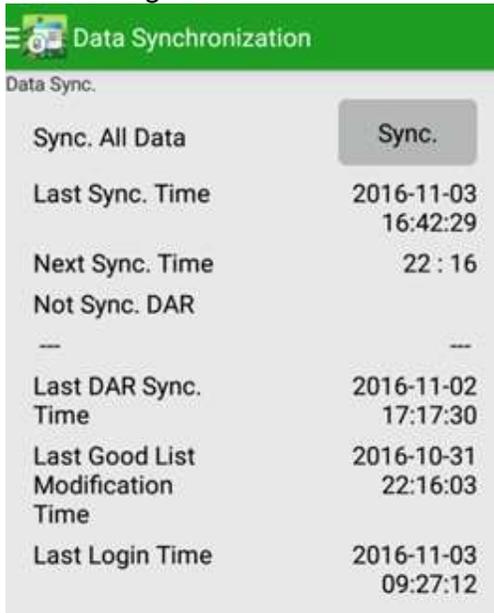

### 1.4. Data Synchronization

The CIC DAR APP would synchronize with CIC cloud automatically at the scheduled time when the Internet is connected. Contractors may choose to synchronize the CIC DAR APP with the CIC cloud manually by pressing the “Sync.” function. The synchronization procedures are as follow:

- Tap “Data Synchronization” under the main menu.

- Tap **【Sync.】** to synchronize the data to CIC cloud, including the DARs and workers registration records.

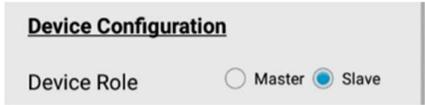

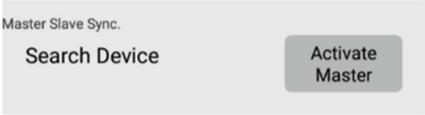

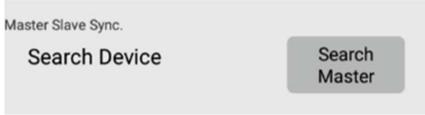

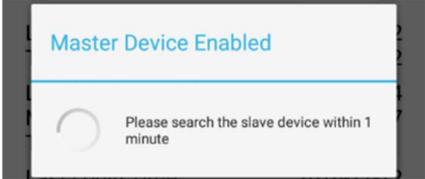

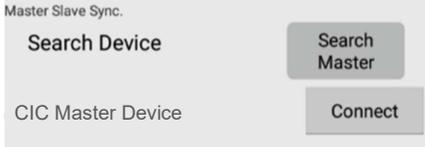

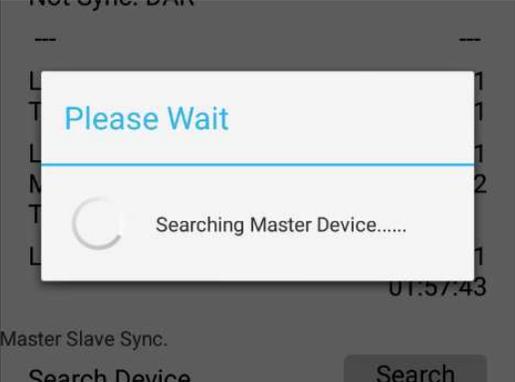

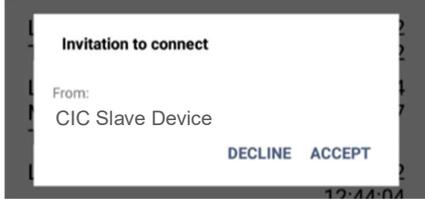

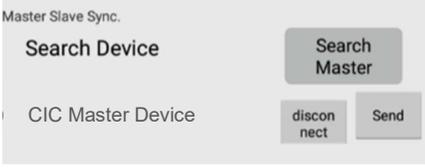

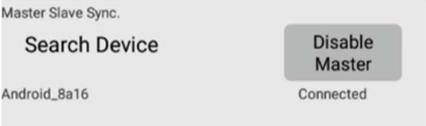

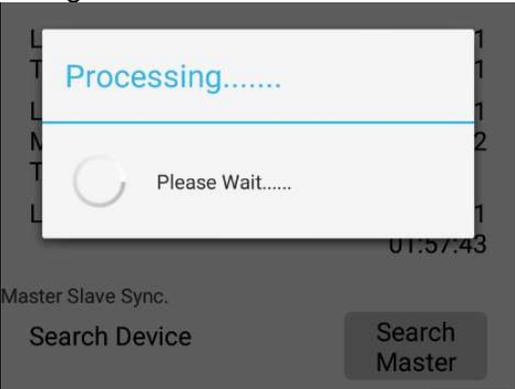

- If synchronization is failed, error code will be shown. Please refer to the following error code table to find out the root cause:

Code	Description
EK80	Invalid Account Token.
EK81	Account Token Expired.
EK82	Invalid App ID.
EK99	Internal KMS Error, consult Helpdesk Support.
EK401	Unauthorized network
EK404	Unknown Host or unresolved hostname
EK503	Connect Server Fail
EK504	Login required network
EK990	Undefined server error
EK999	Unknown / unexpected

### 1.5. Master & Slave Device

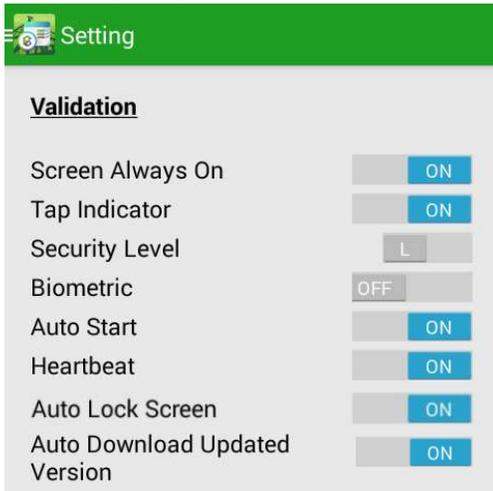

- If device unable to connect CWRG due to lack of network connection in contract period. The device can select Master Slave mode
- Master device – Master device can collect all slave devices data. Moreover, the device can synchronize data to CWRG as slave device.
- Slave device – suppose the device installed in the area without any network coverage.
- Master Device can data synchronize with CWRG to update good list and bad list update.
- Master and Slave device and perform data transfer as below steps

Master Device	Slave Device
<p>Select "Setting"&gt; "Device Configuration" 1. Set device role to 'Master'</p> 	<p>Select "Setting"&gt; "Device Configuration" 2. Set device role to 'Slave'</p> 
<p>Select "Data Synchronization" &gt;"Master Slave Sync." 3. Press <b>【Activate Master】</b></p> 	<p>Select "Data Synchronization" &gt;"Master Slave Sync." 4. Press <b>【Search Master】</b></p> 
<p>5. Master Device will search nearby Slave device</p> 	<p>6. Nearby Master device will be shown as below. Press <b>【Connect】</b> to pair up.</p> 
<p>7. Waiting for Master device to confirm</p> 	<p>8. Select <b>【ACCEPT】</b> to confirm the connection with Slave device</p> 

<p>9. Press <b>【Send】</b> to transfer data and update information from CWRG through Master device</p> 	<p>10. Display connected Slave device</p> 
<p>11. Processing, until the screen return to bright</p> 	

### 1.6. Auto Lock Screen Features

- This function supports only the CIC device.
- Except On/Off button, other physical device key will not be available when Auto Lock function turn on.
- Select **【ON】** in “Auto Lock Screen” under “Setting” page.

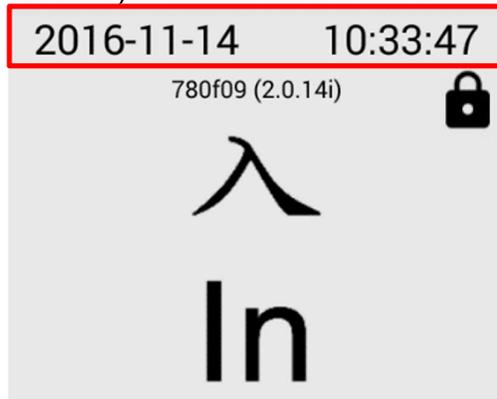

- After turning “ON”, the screen will be locked after switching to the page “Take Attendance”.
- Or tap **【Lock Screen】** in **【☰】** under “Take Attendance”.

After entering the “Take Attendance” page, the “Screen Locked” message would pop up.

- Use any two fingers to click the top of the screen 5 times or above (within 3 seconds) to unlock the Screen Lock.

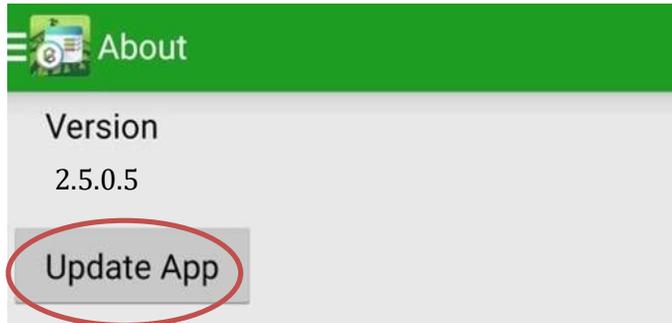

- The screen will be unlocked. Moreover “Screen Unlocked” message show.

### 1.7. About

- Show CIC DAR App. version number.
- Tap **【Update App】** , to check any version update
  - If the device is not on the latest application version, CIC DAR App would download the latest Application and start the installation process.

### 1.8. Logout

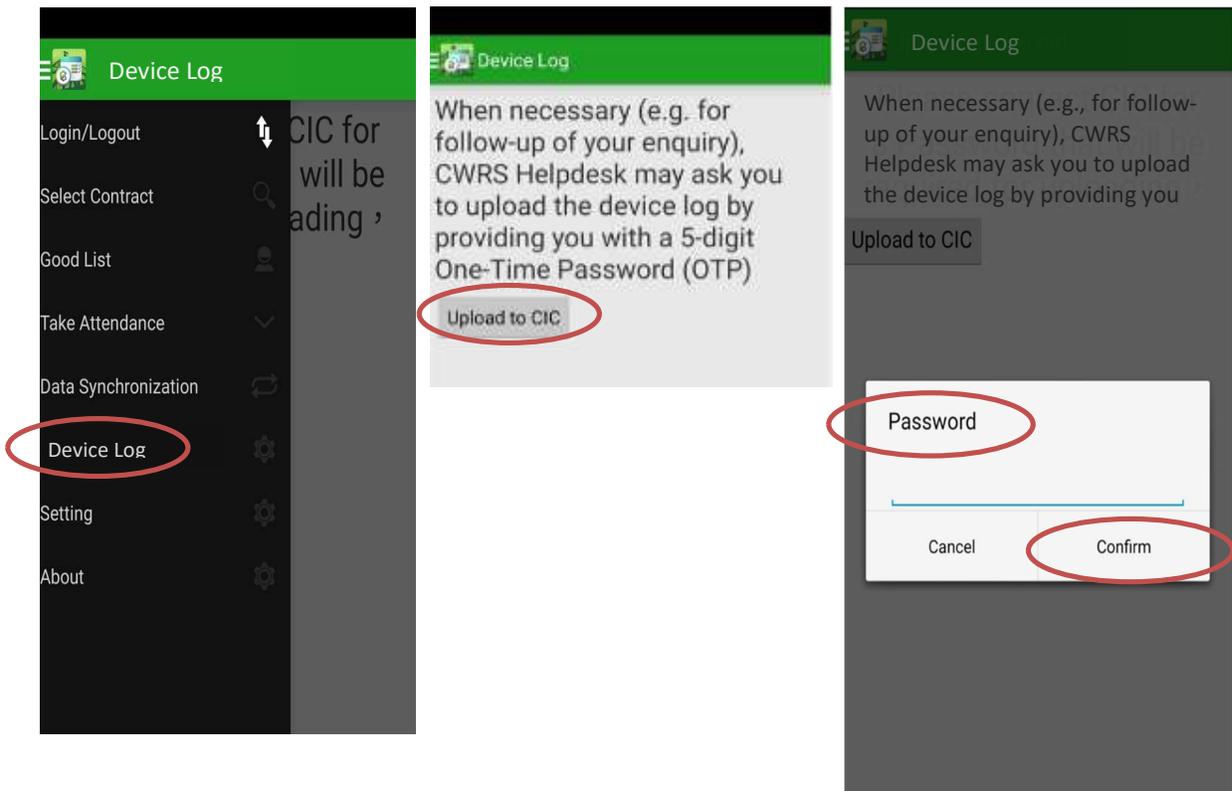

- Tap “Login/ Logout”, to logout the CIC DAR APP.

### 1.9. Upload Device Log

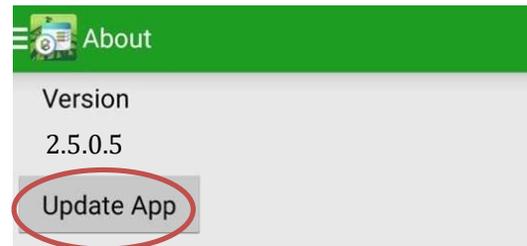

If a user encounters problems when using the DAR App, he/she may provide the screen capture(s)/video(s) and email to CWRS Helpdesk at [cwrs\\_helpdesk@cic.hk](mailto:cwrs_helpdesk@cic.hk) or contact CWRS Helpdesk at 2100 9863 for assistance. CWRS Helpdesk may request for the device log for follow-up and will provide the user with a 5-digit One-Time Password (OTP) for uploading the log to the CIC via the DAR App.

- a) Click **☰** in the DAR App's main menu in the upper left-hand corner to open the menu bar;
- b) Select **Device Log** ;
- c) Click **Upload to CIC** ;
- d) Input a 5-digit One-Time Password (OTP), then click **Confirm** ;
- e) Device log is sent to CIC.

### 1.10. Update Notification

- a) When there is a new version of DAR App, the following notification “有可用更新，請下載更新” will be appeared.
- b) Users can download the latest version by clicking the link, then click 【Update App】

## Construction Workers Registration Gateway ( CWRG )

### 2.1. Login / Logout

#### 2.1.1. Login

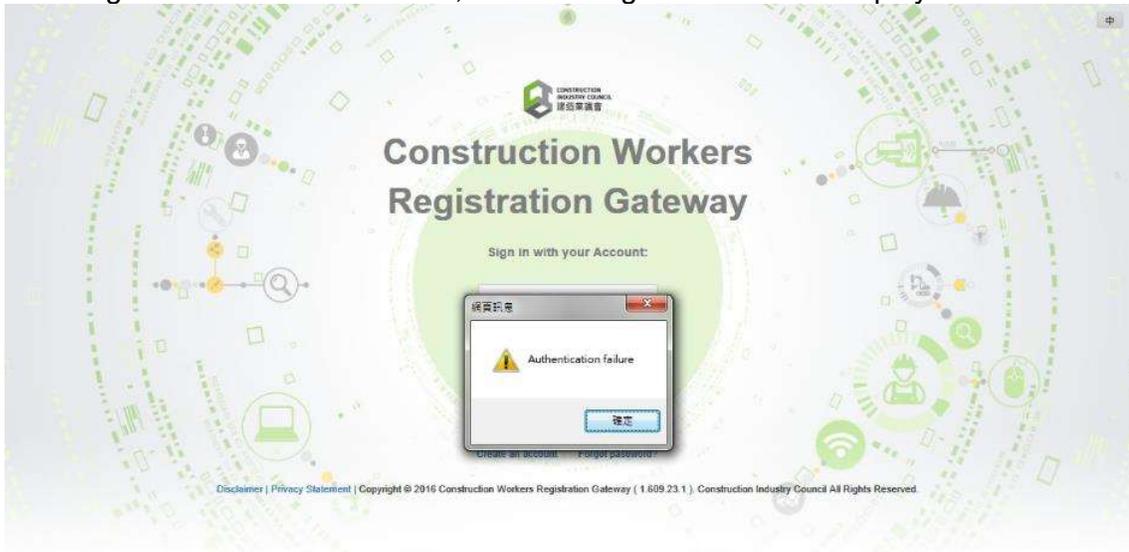

- Using a web browser access CWRG web page (<https://cwrq.cic.hk/>).
- The Login screen appear as shown below:

- Enter your CIC User Name and Password.
- User can remove the remembered user name and password from Web Browser, please refer [this link](#) for Windows IE and [this link](#) to Google Chrome to setup.
- Click **【Sign In】** button to login CWRG.

- If the login information is incorrect, the following screen will be displayed:

- Click **【OK】** 。
- Enter Username and Password again to login CWRG

Note: Due to security reasons, if there are too many incorrect login attempts the account on CWRG or DAR App will be locked. For site admin account unlock please refer to Section 2.2.3.5. For master admin account, please contact CIC to unlock.

### 2.1.2. Logout

- Click the “**Click to sign out**” on the CWRG homepage or “ Sign Out “on the top right corner of the toolbar.

Note: Due to security reasons, if the web page is idle for a certain period of time without user input, operating the web page again would force the user to login again without any warning. The user is required to input their login id and password again.

### 2.1.3. Forget Password

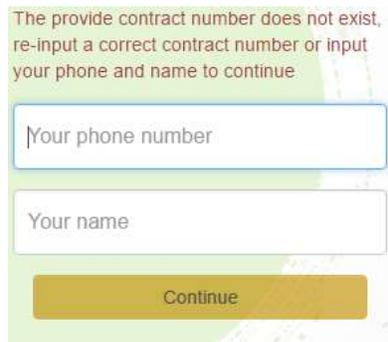

- Click “Forgot my password?” to reset the password.

- Input you Login ID and the CIC reference no. of one of the related contracts

- The contract number being provided does not exist. Please retry and enter a correct contract number. Alternatively, please input your phone and name and CIC representative will contact you afterwards.

Note: Password needs to reset within 7 days once received an email from CIC.

### 2.1.4. Change Password and User Name

- Click the user name at the top right-hand corner after login

- Click  to change password

- Input existing password and new password, click **【Confirm】**

Note: Password must be between 6 and 15 characters.

Current Password :	<input type="text" value="Current Password"/>
New Password :	<input type="text" value="New Password"/>
Confirm Password :	<input type="text" value="Confirm Password"/>

- User can click  to change the English name, Chinese name and email address

Login Name:	<input type="text" value="SuperAdmin"/>	Email address:	<input type="text" value="cws_helpdesk@cic.hk"/>
Password :	<input type="password" value="*****"/>	Confirm Password :	<input type="password" value="*****"/>
English Name	<input type="text" value="Construction Industry Council"/>	Chinese Name:	<input type="text" value="建造業議會"/>
Status:	Active		

- Click  to update account information after completion, or click  to abort changes.

## 2.2. Contractor & Contract Accounts Maintenance

### 2.2.1. Contractor Profile

➤ Click **“Contractor”** to enter the contractor profile.

**Contractor Profile**

**Contractor Particulars**

### 2.2.2.7. Edit Draft Contract application request

- When your Contract Applications status is “Draft”, you can update the contract details before submitting contract application
- Open your contract application and click on **【✎】** to edit application.

- After updated, click **【✓】** to submit update contract information request.

### 2.2.3. Contract Management

- User can manage the daily work of the contract by using the toolbar on the top right corner of the page. The functions are listed as follow:

	Icon	Description
1.		Request Contract Completion in Advance
2.		Quick Edit Contract
3.		Request Contract Update
4.		Download DAR
5.		Create Site Admin Account
6.		DAR Submissions
7.		Search Good list Problem
8.		Good List Management
9.		Upload DAR for Exempted Site
10.		Mass DAR Deletion
11.		Assign Site Admins
12.		Subscribe DAR Submission Reminder

#### 2.2.3.1. Assign Site Admin (For Master Admin ONLY)

- Click Assign site admin icon  on the toolbar
- Assign contract right to site administrator
- Click **【 OK 】** to save the changes.
- Click **【 Cancel 】** to return to the page without changes.

Assign Site Admins				
Assign	Login	Eng Name	Chi Name	Email
<input type="checkbox"/>	siteAdmin A	Site Admin	工地管理員	cic@cic.hk

**Note:** Only the Contractor's Master Administrator has the right to assign site administrator(s).

### 2.2.3.2. Create Site Admin Account (For Master Admin ONLY)

- Click Create site admin account icon 【  】 on the toolbar.
- Enter site admin account information as required and assign contract(s).
- Click 【**Create**】 to create site admin account.
- Click 【**Cancel**】 to return to the page without changes.

#### Create Site Admin Account

**Note:** The exported excel file will be saved as Microsoft Excel 2007 version.

### 2.2.3.4. Mass Daily Attendance Record Deletion

User can remove DARs in bulk before formal DAR submission at the CWRG. This function can support contractors' reconciliation/ checking and remove those DARs inconsistent with their records at the integrated biometric devices (or database).

- Click mass DAR deletion icon 【  】 on the tool bar.

- Click **Download Excel Template** to download the template. Save those DARs you would like to remove from the system in the specified format as required on the Excel template.
- User can obtain the information of **Row ID** and **CWR No** from the raw DAR and submitted DAR. Please refer to the user manual section 2.2.3.3 for the download procedures.
- Click '**Drop Excel**' to add the attachment.
- The system will delete the respective DAR(s) automatically. The following Message will indicate whether the mass DAR deletion is successful or not:

- If the uploaded data or file format is not correct, the following messages will occur:
- I) DAR does not exist.

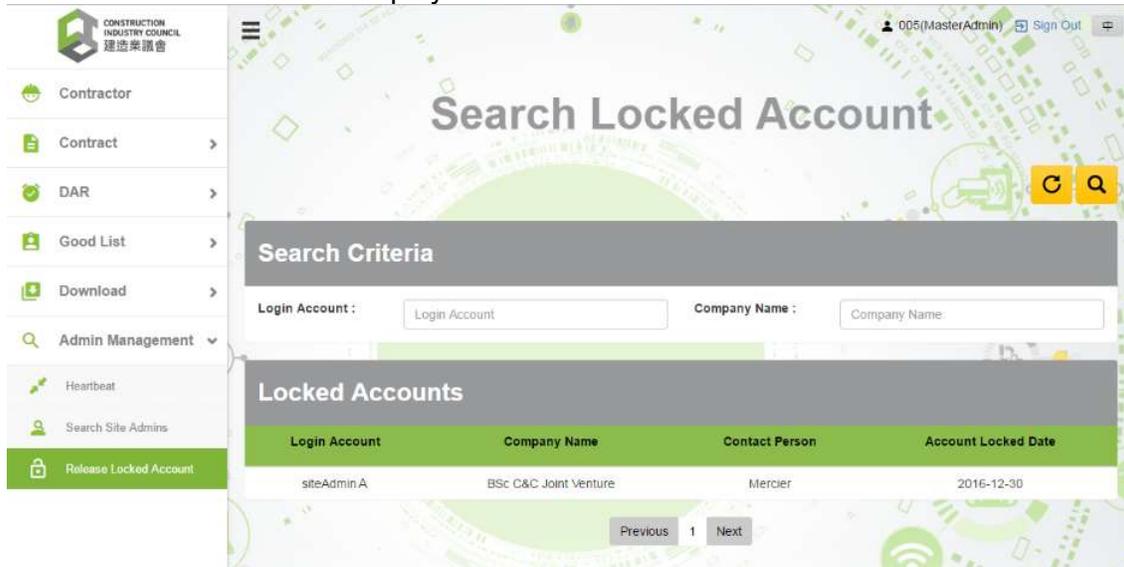

- II) No Construction Workers Registration number could be found in the Excel.

Note: **RowId** is a unique indicator for each DAR. User shall provide correct and complete RowId and CWRNo to perform the mass DAR deletion.

### 2.2.3.5. Search Locked Site Admin Account

- The site admin account would be locked as a result of excessive (20 times) failed login attempts.
- Master admin can then choose to unlock or release these locked accounts.
- First, click “ **Admin Management** ” > “ **Release Locked Account** ”.
- To reset the searching criteria and result, click **【C】** .
- Enter searching criteria (Optional) and click **【Q】**
- Search results will be displayed in the table as shown below.

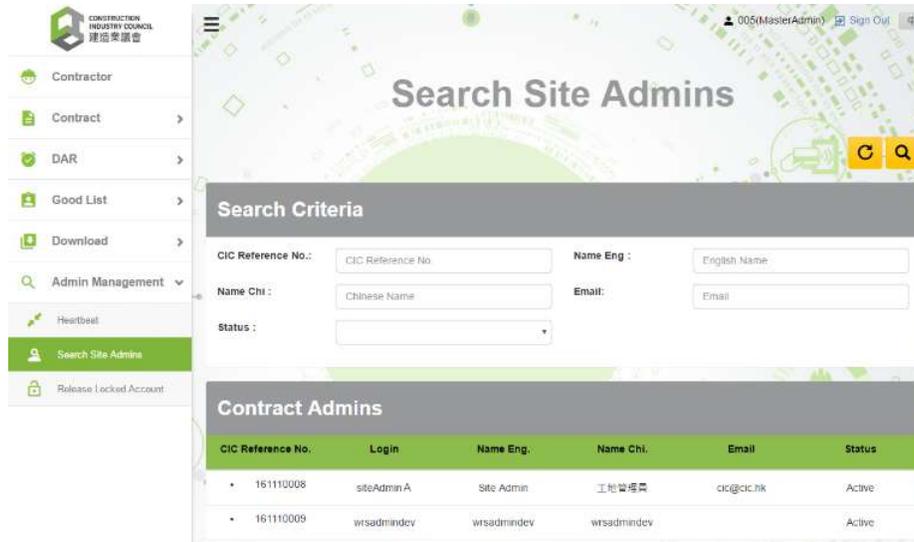

- Select locked site admin account, click **【🔒】** to unlock that account.

### 2.2.3.6. Search Site Admins

- To check, update or assign contract to site admin, click “ **Admin Management** ” > “ **Search Site Admins** ”
- Input searching criteria (Optional), click  .
- To reset the searching criteria, click  .
- Search results will be displayed in the table as shown below.
- Click on the desired site administrator to review the details of the administrator account.

- To change the password/ email/ name of site admin, click  “ **Edit Account** ”.
- To assign contract to site admin, click  “ **Assign Contract** ”.
- To delete site admin account, click  “ **Delete Account** ”

## 2.3. Daily Attendance Record Maintenance

### 2.3.1. Daily Attendance Record Submission

#### 2.3.1.1. Daily Attendance Record Submission Status of All Contracts

- Click **“DAR”** > **“Unsubmitted DAR Submission”**
- The system will display the DAR upload status of all contracts on the past 7 days.
- Click **【View】** to view the DAR details of the desired contract account.
- Click **【Summary of Unsubmitted DAR Submission】** to convert preview mode.

	Item	Description
1.		The DAR(s) have been uploaded successfully
2.		The DAR(s) upload incomplete
3.		Unknown status

**Note:**

- CIC cloud shall synchronize with the card reading device to collect the latest attendance record. Therefore, the DAR upload status of the card reading device in CWRG will not reflect until the next day.
- ‘N/A’ will be shown for contract without any registered device.

- After changing the display mode, the system will display the DAR upload details of all contracts on the past 7 days, as shown below.
- Click **【View】** to review the DAR details of the desired contract account.
- Click **【Detail of Unsubmitted DAR Submission】** to change the preview mode.

	Item	Description
1.	 0/0	No. of device the DAR upload has been completed / Total no.of registered device(s)
2.	 0	Total no. of worker's DAR uploaded
3.	 0/0	No. of DAR(s) uploaded / Total no.of DAR(s)

### 2.3.1.2. Manage the DAR Upload Status of the Specified Contract

- In DAR Submission Summary page for contract, the system will display the past and present DAR upload status of the contracts on a period of 7 days as shown below:

### 2.3.3. Upload Daily Attendance Record for Exempted Site

- For exemption site, users can click **【📄】** in contract profile or DAR Submission Summary to upload DAR manually by Excel.

**Contract Information**

CIC Reference No :	DummyKBCContractNumber	Contract No:	DummyKBCContractNumber
Contract Description :	DummyKBCContractDes	Status :	Active
Site Commencement Date :	2015-09-01	Site End Date :	2017-01-02
Start Entrance Date :		End Entrance Date :	
Government Dept. /Client :	Public	Public Work Department :	Drainage Services Department

**Step For Upload :**

1. Select excel file. Please make sure the excel format
2. Processing, please wait.
3. A Prompt up message will be display.

**Notes:**

Please read carefully the following notes before completing and submitting your report to the Construction Industry Council.

1. Please input either the card sequence no. printed on the lower right corner at the back of Construction Workers Registration Card or the card serial no. stored in the Construction Workers Registration Card.
2. If the construction worker is a registered skilled worker or semi-skilled worker but is not carrying out the construction work of his/her registered trade(s) on the construction site, please input GREEN (General Worker) as the practising trade code.

**Upload File :**

Drop Excecls (.xls, .xlsx) here

[Download Excel Template - UploadAttendanceByExcel.xls](#)

- Click **“Download Excel Template”** to download the template. Save those DARs you would like to add to the system in the specified format as required on the Excel template.

IN/OUT/TAP 進出/拍 (0/1/2)	Construction Workers Registration No. 建造業工人註冊編號	Card Serial No. / Card Sequence No. (See Note 1) 卡序號 / 序列號(註解 1)	Practising Trade Code (See Note 2) 從事工作的工種代號 (註解 2)	Transaction Date/Time (yyyy-mm-dd hh:mm:ss) 讀證日期/時間 (年-月-日 時:分:秒)

### 2.3.4. Daily Attendance Record Submission

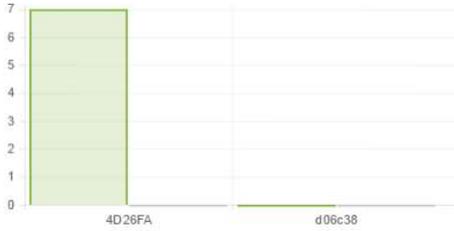

- User can submit attendance record by using the  as shown on the above-mentioned page.
- Click **Submit** and the following statistic page would be popped-up.
- User must tick the check box below to confirm the terms.
- Click **Confirm** to submit DAR or click **Cancel** to leave the page without submission.

Are you sure to submit Daily Attendance Record?

Submission Information		Devices Sync Status					
Start Submission	2017-01-06	Total	2	Completed	0	Incomplete	2
End Submission	2017-01-12						
Due Date	2017-01-14						
Total No. of Workers 	0						

■ Upload Completed Device    ■ Upload Incomplete Device

---

DAR Upload Status		Daily Attendance Records per Devices			
Total	7	Uploaded	7	Pending	0
					
					

Certain records require verification before submission, click [<here>](#).  
 We have checked the Daily Attendance Record according to the requirements of the Construction Workers Registration Ordinance Cap. 583 and hereby submitted to the CIC.

Confirm    Cancel

- If the message '**Certain records require verification before submission, click <here>**' is shown at the bottom above the terms, please click **[here]** to view the Attendance Records for Verification.

- Users can click the **[Cancel Submit]** button after submission. Please note that the **[Cancel Submit]** button is available only on or before DAR Submission due date. After due date the submitted DAR cannot be cancelled.

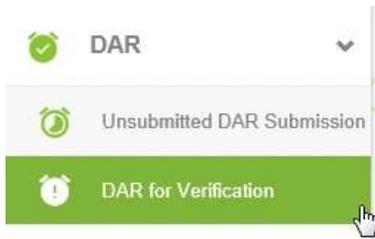

Please note that those DAR, which are uploaded to CWRG after DAR submission, cannot be viewed.

### 2.3.5. DAR for Verification

System will validate card status of DAR during mobile upload. DAR records will be marked as failed in “DAR for Verification” if the corresponding CWR card(s) is/are invalid. An email reminder will be sent to the site representative. User can check the records in the verification page of CWRG.

- To verify the failed DAR records, click **【 DAR for Verification 】** ,

- Select Contract

The screenshot shows a page titled 'Contracts with Attendance Records for Verification'. Below the title is a table with the following data:

CIC Reference No	Contract No.	Short Desc	Status	Site Commencement Date	Site End Date
160310039	20160328	20160328	Active	2016-03-01	2016-03-31

- Input searching criteria (Optional) , click **【 Search 】** ,

- User can click **【 Edit 】** to edit or click **【 Delete 】** to remove failed DAR after verification. System would not show reminder once the failed DAR has been removed before DAR submission.

The screenshot shows a table titled 'Attendances' with the following data:

CWRNo	Practising Trade Code	In/Out Type	Transaction Time	Source Type	Card No.	Biometric Signal	Device ID	Fail Reason	Edit	Delete
CWR15048257	GREEN	In	2016-12-14 10:44:05	Mobile	047A8BFABC3480	Unknown	2722	Smart card waiting for activation.	Edit	Delete
CWR15048257	GREEN	Tapped	2016-12-14 10:33:10	Mobile	047A8BFABC3480	Unknown	2722	Card number does not exist.	Edit	Delete
CWR15048257	GREEN	Out	2016-12-14 10:31:31	Mobile	047A8BFABC3480	Unknown	2722	Card number does not exist.	Edit	Delete
CWR10028491	GREEN	Out	2016-12-14 10:22:56	Mobile	043192FABC3480	Unknown	2722	Smart card voided on 2016-12-13.	Edit	Delete

- Fail Reason – Smart card waiting for activation  
Workers should call worker registration hotline 3699 8703 to activate their cwr cards.
- Fail Reason – Smart card voided  
Workers used voided cards. They should use new (valid) cwr cards instead.
- Fail Reason – Card number does not exist  
Workers should contact worker registration hotline to check their cards status.

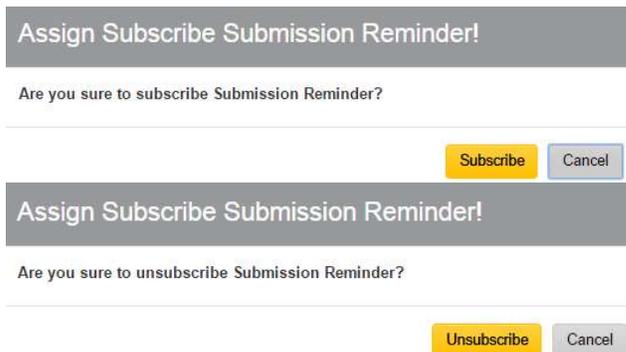

### 2.3.6. Download Raw DAR / Submitted DAR

- User may download raw / submitted DAR in excel format by using the download  feature as label on the above-mentioned page.
- Click  RAW to download raw DAR.
- Click  SUBMITTED to download submitted DAR

### 2.3.7. Change Subscription Status for DAR Submission Reminder

A DAR submission reminder email will be sent at 9am on 8<sup>th</sup> and 9<sup>th</sup> day of deadline if DARs of the specific period are not submitted. The reminder can be disabled by using Unsubscribe function in Contract Profile. The recipients of this email reminder are: 1) Site Admin, 2) Site Representative and 3) Company Representative.

- In contract profile, click  to unsubscribe or subscribe DAR submission reminder.

- Click **Subscribe** or **Unsubscribe** button in the pop-up dialog to confirm changes.

## 2.4. Other Functions

### 2.4.1. Manage Registered Construction Workers details

- In Contract Profile, Click  “Good List” to enter the Good List Management page.

# Good List

- Input: (I) CWR No.; (II) Practising Trade; (III) Start Date; (IV) End Date.
- Click **【Add】** to register worker to the good list.
- Click **【Cancel】** to leave the page without changes.
- Source Type will indicate the source of good list.

	Item	Description
1.	CWR No.	Construction Workers Registration Number
2.	Practising Trade	The work of the designated Trade Division that will carry put by the worker within the registered period.
3.	Start Date	The date worker begins to entry the site to carry out the work of the designated Trade Division.
4.	End Date	The last date worker may entry the site to carry out the work of the designated Trade Division.
5.	Source Type : Web	Good List created on CWRG
6.	Source Type : Mobile	Good List created on card reading device

### 2.4.1.3. Edit Good List

- Click **【Edit】** to edit registered worker's details on the good list.

The screenshot shows the 'Edit Good List' interface. At the top, there are tabs for 'By Device' and 'By Worker'. Below the tabs is a search form with fields for 'CWR Number.', 'Chinese Name or English Name', 'Practising Trade', 'Start Date (yyyy-mm-dd)', and 'End Date (yyyy-mm-dd)'. Below the search form is a table with columns: CWR No., Name English, Name Chinese, Practising Trade, Start Date, End Date, Source Type, and Last Modified Date. The table contains three rows of data. The first row is highlighted, and its 'Edit' button is enclosed in a red box. The 'Delete' button is also visible for each row.

CWR No.	Name English	Name Chinese	Practising Trade	Start Date	End Date	Source Type	Last Modified Date	
CWR [QR]	Tang Yiu Ming	[QR]	C406 強制性基本安全訓練課程 (平安咭) Mandatory Basic Safety Training Course(Green Card)	2016-11-11	2016-12-21	Mobile	2016-12-15 15:43:44	<b>Edit</b> Delete
CWR [QR]	Yiu Pui	[QR]	C310 建造機械技工 Construction Plant Mechanic	2016-11-11	2016-12-21	Mobile	2016-12-15 15:43:45	Edit Delete
CWR [QR]	Tang Kui	[QR]	C406 強制性基本安全訓練課程 (平安咭) Mandatory Basic Safety Training Course(Green Card)	2016-11-11	2016-12-12	Web	2016-11-24 17:19:41	Edit Delete

- Click **【Save Edit】** to save the changes.
- Click **【Cancel】** to leave the page without changes.

The screenshot shows the 'Edit Good List' interface with the 'Save Edit' and 'Cancel' buttons highlighted. The table below shows the details of the selected worker, with the 'Practising Trade' field expanded to show a dropdown menu.

CWR No.	Name English	Name Chinese	Practising Trade	Start Date	End Date	Source Type	Last Modified Date	
CWR [QR]	Tang Yiu Ming	鄧耀明	C406 強制性基本安全訓練課程 (平安咭) Mandatory Basic Safety Training Course(Green Card) ▾	2016-11-11	2016-12-21	Mobile	2016-12-15 15:43:44	<b>Save Edit</b> Cancel

**Note:** CWRG only allows to modify the following data:  
(I) Practising Trade; (II) Start Date; (III) End Date.

### 2.4.1.4. Delete Registration Record from the Good List

- Click **【Delete】** to delete the registered worker from the good list.

The screenshot shows the 'By Worker' tab of the system. It features search filters for CWR Number, Chinese Name or English Name, Practising Trade, Start Date, and End Date. Below the filters is a table of registered workers. The 'Delete' button for the first worker is highlighted with a red box.

CWR No.	Name English	Name Chinese	Practising Trade	Start Date	End Date	Source Type	Last Modified Date	
CWR16	Tang Yiu		C406 強制性基本安全訓練課程(平安咭) Mandatory Basic Safety Training Course(Green Card)	2016-11-11	2016-12-21	Web	2016-12-30 17:37:51	Edit Delete

### 2.4.4.3. CIC DAR Application

- Click **“Download”** > **“CIC DAR Application”** , to download the most updated CIC DAR Application for card reader.

### 2.4.4.4. CWRS Chinese User Manual

- Click **“Download”** > **“CWRS Chinese User Manual”** , to download the latest CWRS Chinese User Manual.

### 2.4.4.5. CWRS English User Manual

- Click **“Download”** > **“CWRS English User Manual”** , to download the latest CWRS English User Manual.

### 2.4.5. CWRG Version number

- The version number of CWRG is specified inside the bracket at the underlying statement of the Welcome page.
- For example, the version shown here is 1.609.23.1

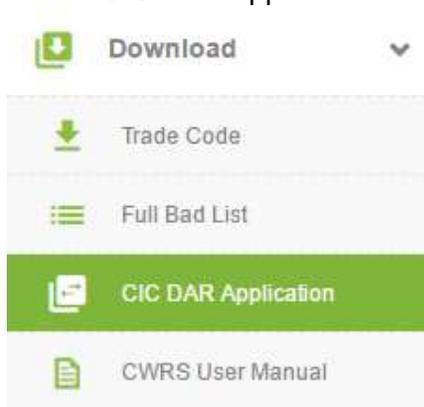

### 2.4.6. Personal Information Collection Statement of using CWRG

- The personal information collection statement of using CWRG is shown below. Users can access this by clicking the Highlighted text "Privacy Statement". If you have any concerns or comments, please feel free to contact the Registration Service of the CIC.

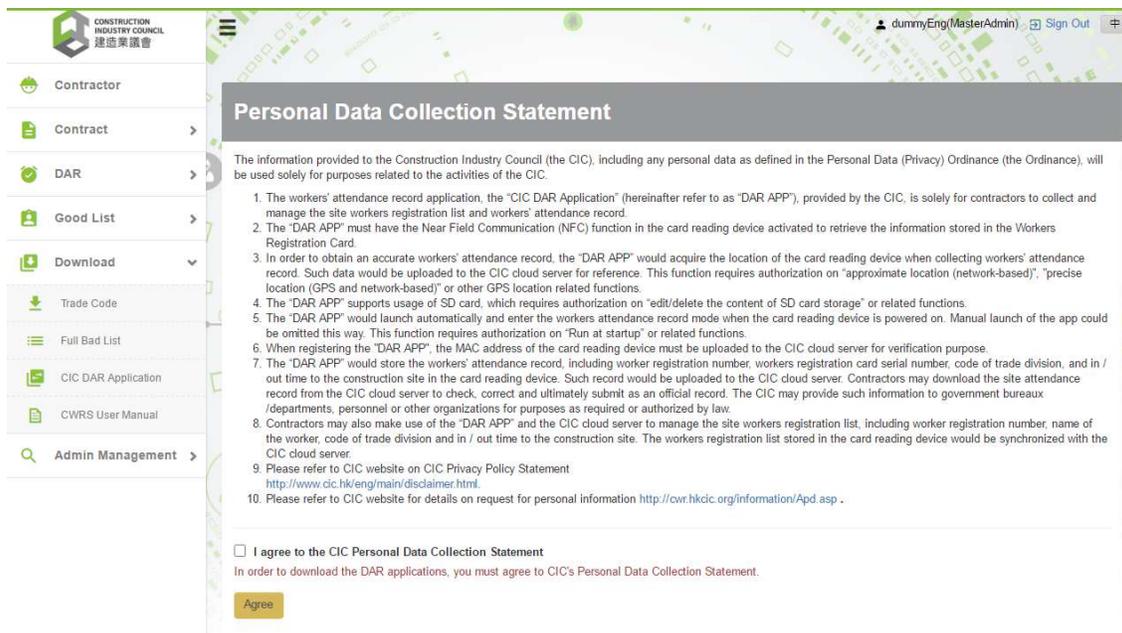

### 2.4.7. Personal Information Collection Statement for DAR application download

- The download of CIC DAR application can be accessed by selecting Download → CIC DAR application.

- A personal data collection statement would pop up. Users are advised to read the details and indicate agreement to the statement before application download.

## 2.4.8. Email notification

- A number of notifications by email are now available to facilitate the CWRG operations.

### 2.4.8.1. Contract application approval

- When a contract application is approved, the following personnel would receive an email.
  - Site Admin(s)

### 2.4.8.2. DAR submission reminder

To facilitate users in submitting DAR in time, the CWRS has equipped a configurable function under contract profile whereby users are allowed to choose for automatic email reminder.

- If the function is activated, the following personnel would receive emails on the due date of each submission cycle, if the DAR of the related period is still outstanding and not submitted.
  - Site Admin(s)
  - Site Representative
  - Company Representative

### 2.4.8.3. DAR submission confirmation

- An email confirmation would send to the following personnel upon DAR submission.
  - site admin(s)
  - site representative

### 2.4.8.4. Early contract completion application approval

- Contractors are allowed to submit application for early completion of contracts. Once approved, the following personnel would receive an email on the application approval.
  - Site Admin(s)
  - Site Representative
  - Company Representative

#### **2.4.8.5. Lock Master Admin account after 20-times of failed login**

- Master admin account would be locked after 20 consecutive times of failed login. An email would be sent to the following personnel for follow-up.
  - Company Representative

#### **2.4.8.6. Reset password application for Master Admin Account**

- If the master admin account is locked, a reset password request can be made. After verification, the following personnel should receive an email for password reset.
  - Company Representative

#### **2.4.8.7. Non-compliance notification**

- For those contractors offending DAR Ordinance, an email notification would be sent to the following personnel:
  - Company representative
  - Company Authorized Person,
  - Contract Authorized Person,
  - Site Admin(s)
  - Site Representative

#### **2.4.8.8. No Heartbeat Signal or Incomplete Data Transfer in Device**

- If heartbeat signal was not detected or synchronize problem in registered device(s), an email notification would be sent to the following personnel:
  - Company representative
  - Site Representative
  - Site Admin(s)
- Email notification will not be sent if the contract status is 'Ended' or 'Completed'

#### **2.4.8.9. Invalid DAR detected**

- If CWRS detected some invalid attendance record(s) under corresponding contract(s), an email notification would be sent to the following personnel:
  - Company representative
  - Site Representative
  - Site Admin(s)

#### **2.4.9. View Uploaded DAR problem**

- A function at the menu bar is now available to view uploaded DAR problem.

- After the contract selection, the detailed DARs with problem would show similar to that below for follow-up.

### Attendance Records for Verification

**Problematic Attendances**

#### 2.4.10. Export good list in excel format

- Users can choose to download the good list of specified contract. The function is available at the good list under the “By worker” tab page as shown below:

## 2.4.11. Heartbeat

- A function at the menu bar is now available for Master and Site Admin(s) to check device heartbeat status of registered devices as shown below:

The screenshot displays the 'Heartbeat' monitoring interface. On the left, a sidebar menu lists various functions, with 'Heartbeat' highlighted in a red box. The main content area features a map background with the title 'Heartbeat'. Below the map, there are two sections: 'Search Criteria' and 'Contract Info.'.

**Search Criteria:**

- CIC Contract Number:
- Contract Desc.:
- Contract No.:
- Contract Status:

**Contract Info.:**

- CIC Contract Number: DummyKBContractNumber
- Contact Person Name: DummyKBContactPerson Name.
- Contact Person Phone: 26847681
- Contract No.: DummyKBContractNumber
- Contract Desc.: DummyKBContractDes

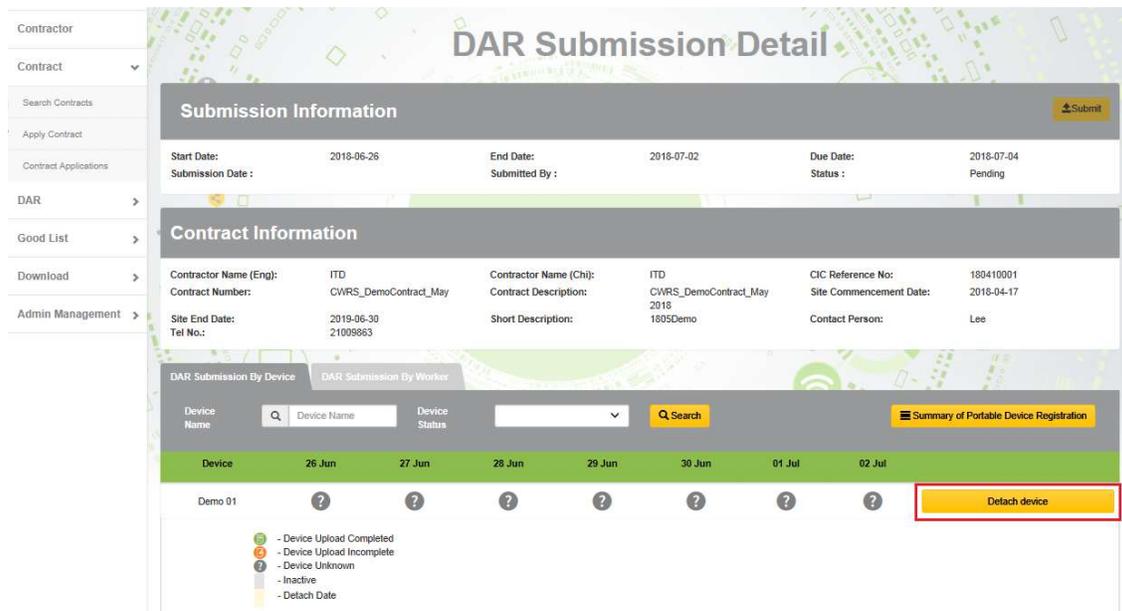

**Monitoring Table:**

Device	Monitoring	Last Good List Upload Time	Last Good List Download Time	Last Heartbeat Signal Time
Prods	🟢	2016-01-26	2016-02-01	0001-01-01 00:00:00
LG G3Beat	🟢		2015-12-30	0001-01-01 00:00:00
159_1218	🟢		2015-12-19	0001-01-01 00:00:00
Sony Z-Testing	🟢	2016-11-11	2016-11-11	0001-01-01 00:00:00

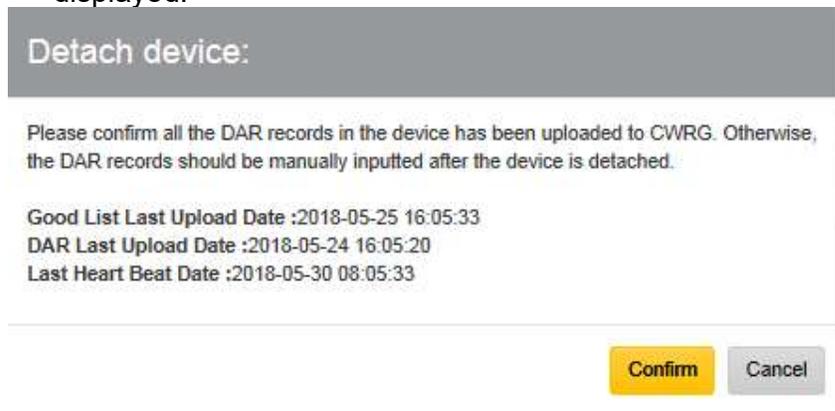

- When the heartbeat function of device is turned on, it will display green icon under 'Monitoring'.
- If there is no heartbeat signal received before 9:00 am or cannot download data in previous data synchronization, the system will send an email notification on every morning for user's attention and follow-up.

## 2.4.12 Device deregistration

- Apart from detaching device by DAR App, this can be done as well in CWRG\DAR Submission Detail as shown below.

- After clicking “Detach device” button, a message box with device’s “Good List Last Upload Date”, “DAR Last Upload Date” and “Last Heart Beat Date” will be displayed.

- All DAR in the device should be uploaded before device detach. After pressing the “Confirm” button to detach device, it cannot be reversed.

### 3. Scenarios

#### 3.1. Multiple site Admins, single device, multiple contracts

This scenario will demonstrate how two different admin staff manages a single device in a different construction site under different contract, below are the background details of this scenario:

Site Admin Account	Card Reading Device	Contract
ADMIN A	DEVICE X	CONTRACT-HK
ADMIN B		CONTRACT-KLN

The master admin of the company creates a login ADMIN A and assign him/her to handle the contract CONTRACT-HK. And for the contract CONTRACT-KLN, the master admin creates and assigns another login account ADMIN B to handle the DAR submission process.

Before the construction site starts working, both the site admin A&B already login DEVICE X and register the device to CONTRACT-HK and CONTRACT-KLN respectively.

The management of the company would use DEVICE X to capture CONTRACT-HK's DAR in the morning and use DEVICE X to capture CONTRACT-KLN's DAR in the afternoon. At the construction site of CONTRACT-HK located in HK ISLAND, ADMIN A logins DEVICE X and starts capturing the DAR during the morning hour. After all the DAR of the workers has been captured and synchronized, ADMIN A logs-off the device. DEVICE X would be transferred to the construction site of CONTRACT-KLN located in Kowloon.

In the afternoon, ADMIN B logs in DEVICE X in the construction site. ADMIN B verifies that CONTRACT-KLN is selected and starts capturing the worker's DAR, at the end of the day. The entire worker's DAR are synchronized to CWRG automatically.

#### Procedure:

- **Step 1.** Master Admin create 2 Site Admin Account , ADMIN A & ADMIN B
- **Step 2.** Master Admin assign ADMIN A to CONTRACT-HK and assign ADMIN B to CONTRACT-KLN
- **Step 3.** Both the Site admin Register DEVICE X for the first use
- **Step 4.** ADMIN A login DEVICE X > select CONTRACT-HK > Capture DAR > Synchronization
- **Step 5.** DEVICE X has been delivered to the construction site of CONTRACT-KLN
- **Step 6.** ADMIN B login DEVICE X > select CONTRACT-KLN > Capture DAR > Synchronization

### 3.2. Multiple site Admins, multiple devices, single contract

This scenario demonstrates how two different admin staff manages two different devices under the single contract. Below are the background details of this scenario.

Site Admin Account	Card Reading Device	Contract
ADMIN A	DEVICE X	CONTRACT-HK
ADMIN B	DEVICE Y	CONTRACT-HK

The master admin of the company creates and assigns two site admin staff ADMIN A, and ADMIN B to handle and manage the DAR submission of CONTRACT-HK.

The company installs the access gate in both the entrance and exit of the construction site. DEVICE X and DEVICE Y are located at the entrance and exit of the site respectively.

Before the construction site starts working, ADMIN A logins DEVICE X and registers the device to CONTRACT-HK. Meanwhile, ADMIN B logins DEVICE Y and registers the device to CONTRACT-HK.

On the first working day, ADMIN A logins the DAR APP on DEVICE X in order to capture worker's DAR at the entrance gate. Similarly, ADMIN B logins the DAR APP on DEVICE Y in order to capture worker's DAR at the exit gate.

Both DEVICE X and DEVICE Y can synchronize the data to CWRG by auto sync. or manual sync.

#### Procedure:

- **Step 1.** Master Admin create 2 Site Admin Account , ADMIN A & ADMIN B
- **Step 2.** Master Admin assign both admin account to CONTRACT-HK
- **Step 3.** ADMIN A register DEVICE X, and ADMIN B register DEVICE Y to the contract CONTRACT-HK
- **Step 4.** ADMIN A login DEVICE X at the entrance gate> select CONTRACT-HK > Capture DAR > Synchronization
- **Step 5.** ADMIN B login DEVICE Y at the exit gate > select CONTRACT-HK > Capture DAR > Synchronization

### 3.3. Multiple site Admins, single device, single contract

This scenario demonstrates how two different admin staff manages a single device in a construction site under same contract. Below are the background details of this scenario.

Site Admin Account	Card Reading Device	Contract
ADMIN A	DEVICE X	CONTRACT-HK
ADMIN B		

The master admin of the company creates and assigns two site admin staff ADMIN A, and ADMIN B to handle and manage the DAR submission of CONTRACT-HK.

On the first working day, ADMIN A login the DAR APP and registers DEVICE X under CONTRACT-HK in order to capture worker's DAR. At the end of the day, ADMIN A makes sure all the DAR(s) are synchronized to the CWRG (either by Auto Sync. Or Manual Sync.) And logoff the Device.

Unfortunately, ADMIN A decided to leave the company on the second working day and the username and password of ADMIN A has been lost. In order to continue the daily DAR capture procedure, ADMIN B login DEVICE X with his/her username and password, select CONTRACT-HK and start capturing the DAR again.

**Procedure:**

- **Step 1.** Master Admin create 2 Site Admin Account , ADMIN A & ADMIN B
- **Step 2.** Master Admin assign both admin account to CONTRACT-HK
- **Step 3.** ADMIN A register DEVICE X under CONTRACT-HK
- **Step 4.** On 1<sup>st</sup> Day, ADMIN A login DEVICE X > select CONTRACT-HK > Capture DAR > Synchronization > logoff
- **Step 5.** On 2<sup>nd</sup> Day, ADMIN B login DEVICE X > select CONTRACT-HK > Capture DAR > Synchronization
