

XensePath

UWB Positioning & Safety Management System

XenseTech — Company Profile

SMART CONSTRUCTION TECHNOLOGIES

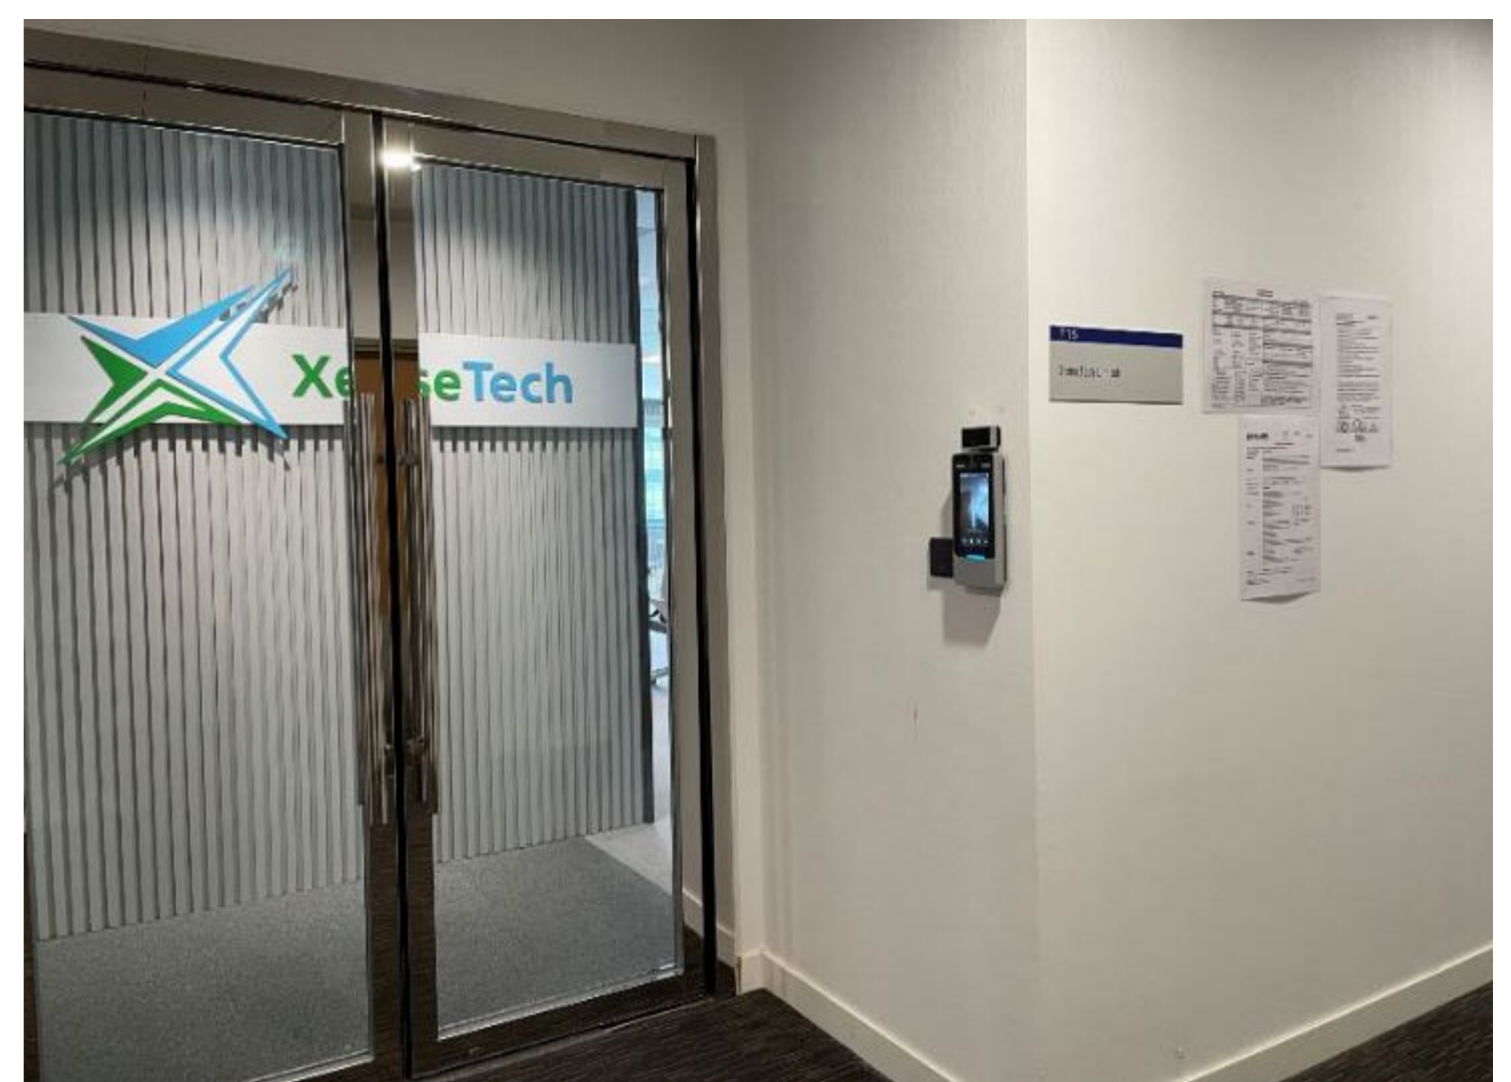

XenseTech Limited ("XenseTech") was sparked in the new era of Construction 2.0, a time of rebirth and reinvention of construction industry processes, products, people and paradigm.

Based in the Science Park, XenseTech is purposed for **bridging the gap between idea and implementation** in this Renaissance Moment.

We strives to collaborate with institutes, researchers and innovators to **develop and provide total sustainable solutions** to all stakeholders of the construction industry in Hong Kong.

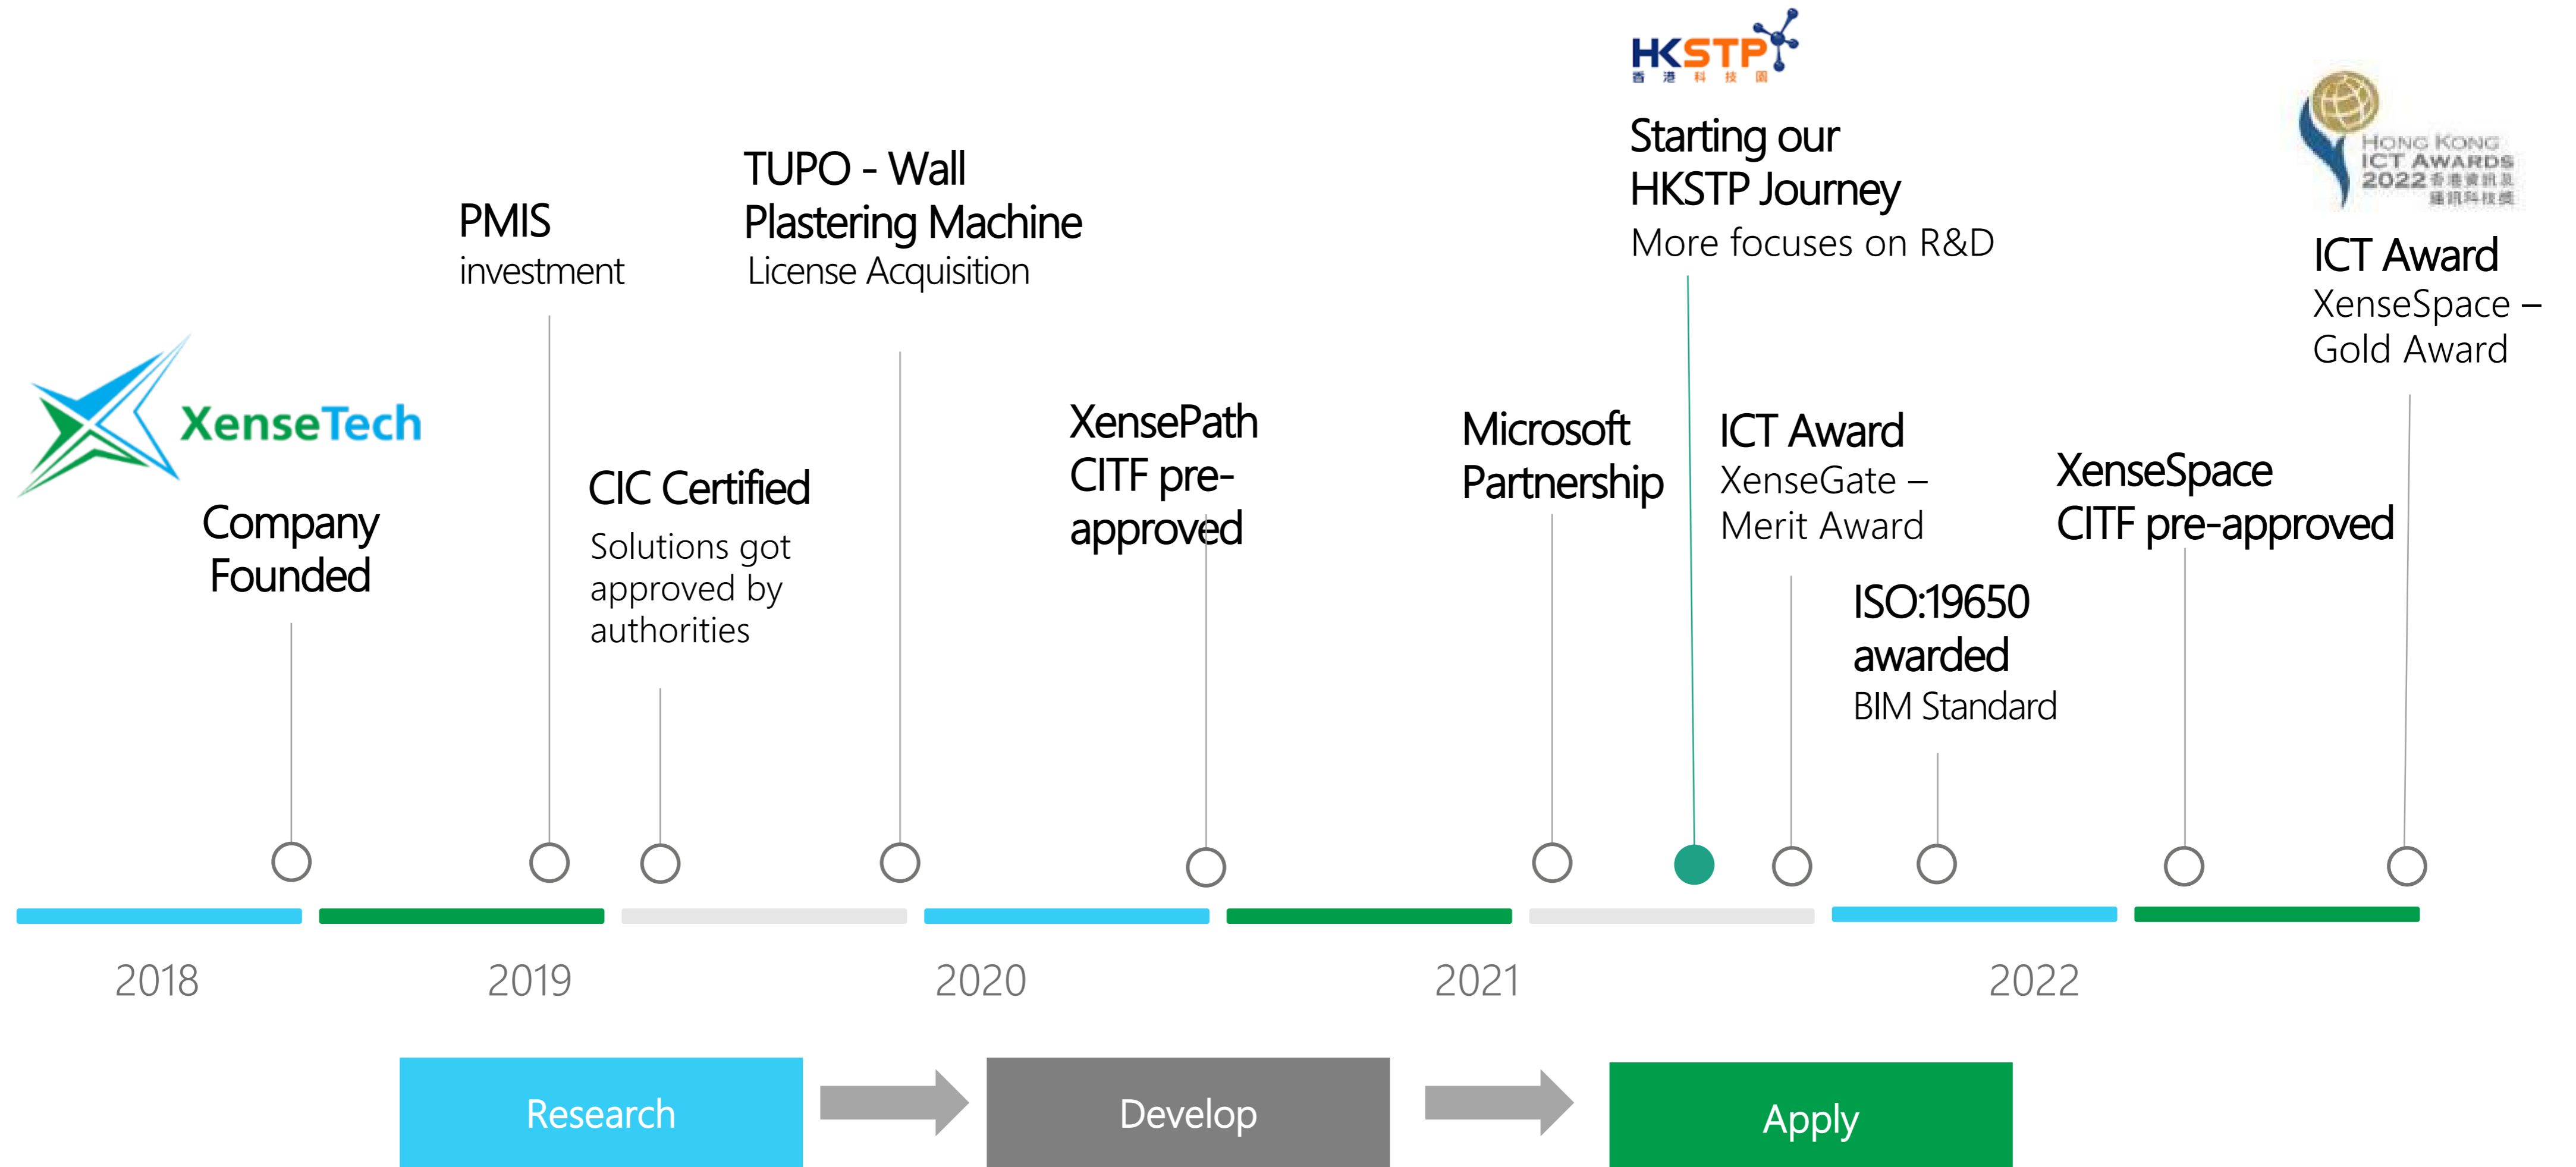

Registered address: Unit 715, 7/F,
Building 12W, 12 Science Park West
Avenue, Hong Kong Science Park

XenseTech — Company Profile

Rapidly growing: history from the beginning

Smart Construction Technologies

All-around solution for construction industry

XenseGuard

ROPE MONIOTRING MACHINE

XENSEGATE

VISIONHUB

XENSEPATH

XENSALYSTIC

XENSESPACE

AUTOMATIC WALL PLASTERING MACHINE

MIC CANDLE-LOC SYSTEM

BIM SERVICE

XENSEPURE

XensePath – UWB Positioning & Anti-Collision

UWB – the future of positioning technology

Available on
30 Apr 2021

三星電子看好UWB將是無線技術領域的明日之星
on 20.10.2020

Available on 14
May 2021

Introduced
in Oct 2020

Demonstrated on
2019 Cocktail Party

UWB vs RFID vs GNSS

UWB – what make us different

Feature	Ultra-Wideband (UWB)	Radio Frequency Identification (RFID)	Global Navigation Satellite System (GNSS) e.g. GPS
Location Tracking Accuracy	Up to 10 cm	Depends on distance between readers	Up to 5 m
Outdoor Location Tracking	✓ ✓ ✓	✓	✓ ✓
Indoor Location Tracking	✓ ✓ ✓	✓	✗
Local Anti-collision	✓ ✓ ✓	✓ ✓	✗
Energy Durability	✓ ✓ ✓	✓ ✓ ✓	✓
Installation & Maintenance	✓ ✓	✓	✓ ✓ ✓

UWB Positioning & Anti-Collision

UWB Safety Management System

Smart Helmet

Smart Card

Wireless Long Range Positioning Antenna Station

Long Range Positioning Gateway

Anti-Collision Antenna Station

XensePath utilize the UWB technology which achieved location tracking with accuracy up to 10 cm. The application of XensePath cover both positioning, behaviour monitoring and anti-collision.

Behaviour Monitoring

Anti-Collision & Danger Zone

Location Tracking

UWB Positioning & Anti-Collision

Site Setup

XensePath utilize the UWB technology which achieved location tracking with accuracy up to 10 cm. The application of XensePath cover both positioning, behaviour monitoring and anti-collision.

Smart Helmet

Smart Card

Anti-Collision Antenna Station

Anti-Collision & Danger Zone

Location Tracking

Behaviour Monitoring

Smart Helmet

Smart Card

Wireless Long Range Positioning Antenna Station

Long Range Positioning Gateway

UWB Anti-Collision & Wireless Positioning Setup

Hardware list

Positioning Gateway
Coverage: Diameter 300M

Wireless Positioning Station
Coverage: 100M (sight distance)
20M (with occlude)

Anti-Collision Antenna Station
Anti-Collision Antenna Station can be installed outside of the positioning

Smart Worker Card tag
Carried by worker for both positioning and anti-collision

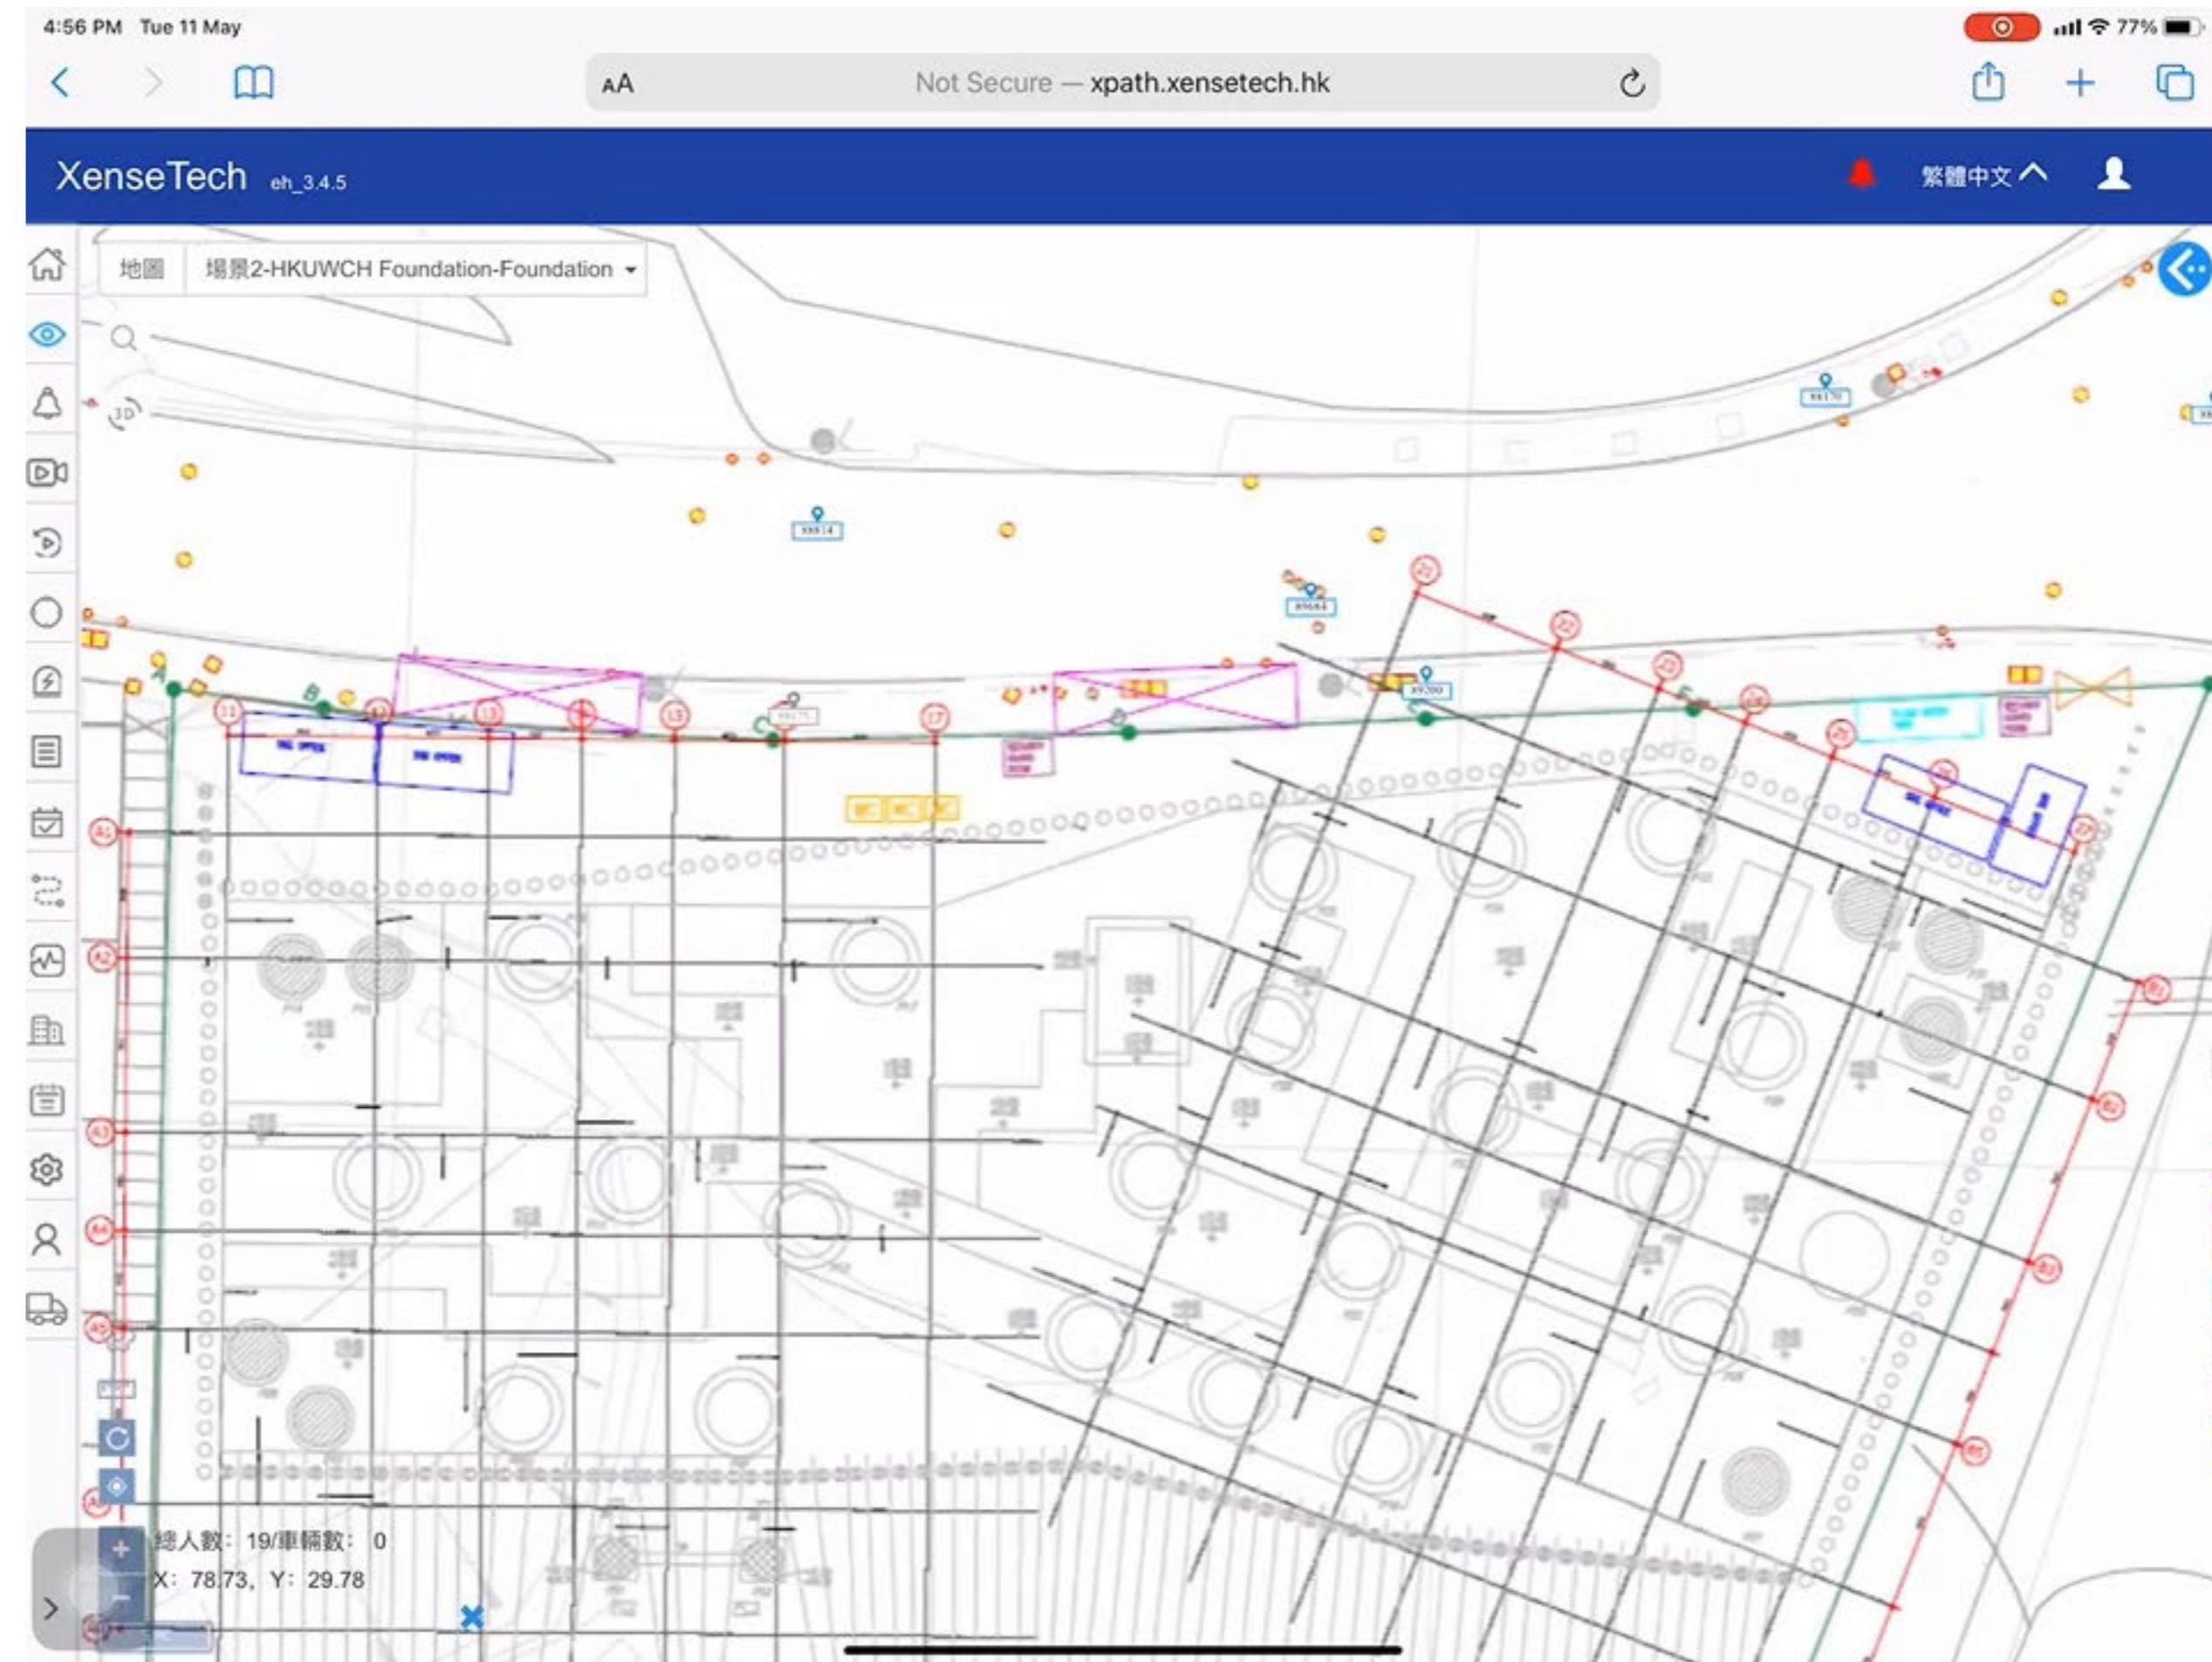

Real-time Worker Positioning

High Tracking Accuracy

Features

- Display & Monitoring in 2D & 3D
- Trajectory playback for incident investigation
- Geo-fencing monitoring for danger zone like confined space

Behaviour Monitoring

Flexible Alarm Triggering Logic

Disappearance from post

Alarm about disappearance of staff from working area

Actionless

Alarm about no-action beyond the pre-set time limit
Self-defined time limit

No company

No-company alarm about entry into critical areas or no company

Source of danger

Alarm about approaching source or danger
Applicable to collision-proof lifting work by forklift
Prevented access to any toxic or harmful area

Stray detection

Stray alarm
Applicable to mutual surveillance group in jail and fire work monitor management

Overtime stay

Alarm about overtime stay
Self-defined area and time limit for the stay

Multi-card monitoring

Alarm about carrying several tags by one person

Crowd gathering

Alarm about crowd gathering
Self-defined number of safely gathered staff

Anti-Collision Module

Early Warning for Workers Near Moving Objects / Danger Zones

Features

- Up to 1Hz directional distance measurement
- Alert workers & operators of danger
 - Vibration prompt (card tag)
 - Audible warning (anti-collision antenna)
 - Visual warning (anti-collision antenna)
- Setting of safety operation distance for different machines
- Optimal for all environment
 - Outdoor (foundation / civil projects)
 - Indoor (building)

Anti-Collision Module

Early Warning for Workers Near Moving Objects / Danger Zones

Features

- Up to 1Hz directional distance measurement
- Alert workers & operators of danger
 - Vibration prompt (card tag)
 - Audible warning (anti-collision antenna)
 - Visual warning (anti-collision antenna)
- Setting of safety operation distance for different machines
- Optimal for all environment
 - Outdoor (foundation / civil projects)
 - Indoor (building)

“

We provide a total sustainable solution to all stakeholders of
the construction industry in Hong Kong.

- XenseTech

”
