古洞北地盤繪圖員廁所暈倒當場不治 一周內第三宗地盤猝死事件 Third workers died suddenly at various construction sites in Kwu Tung in a week

2025年9月29日

古洞一個住宅地盤一名職員猝死,是古洞一周內第三宗地盤猝死事件。警方接獲報案,指古洞一個住宅地盤,一名文員在廁所內暈倒。救援人員接報趕抵,當場證實該名事主不治。

古洞地盤工人酷熱下疑中暑暈倒。同事報案送院惜不治

A worker suspected of suffering from heat stroke and collapsed at a construction site in Kwu Tung

2025年9月27日

古洞有地盤工人疑中暑死亡。警方接獲古洞一地盤的職員報案,指其 同事懷疑中暑不適暈倒。救援人員趕至,發現事主仍然昏迷,將其送 往北區醫院搶救,惟事主終告不治。

古洞北公屋地盤工人暈倒。送院不治

A worker collapsed at a public housing project site in Kwu Tung

古洞北一個公屋地盤內,一名工人突然暈倒。救援人員接報到場,事 主呈半昏迷,送往北區醫院搶救,惜於早上**11**時**35**分不治。

古洞工地一工人安裝金屬模具期間從高處墮下身亡

A worker fell to his death while installing metal mould at a construction site in Kwu Tung

2025年9月4日

一名工人於古洞一興建中樓宇的外牆安裝金屬模具期間從高處墮下, 送院後證實不治。

小蠔灣車廠一工人遭倒後的工程列車撞倒身亡(其他行業 Another Industry)

A worker was struck to death by a reversing engineering train at a train depot in Siu Ho Wan

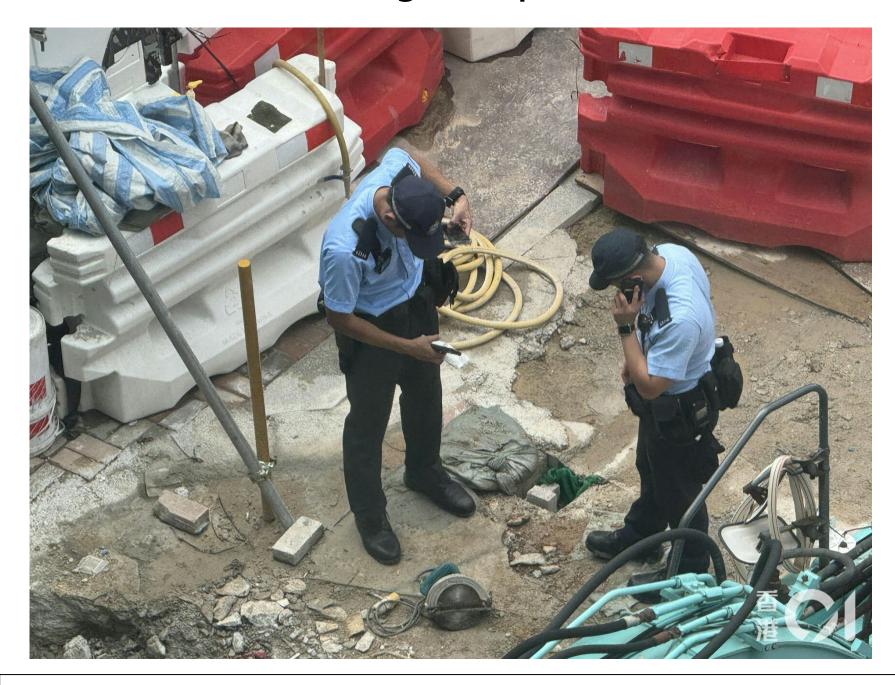

2025年8月15日

小蠔灣一鐵路車廠有一名工人遭一輛倒後的工程列車撞倒,送院後證實不治。

中環地盤工業意外 男工鋸斷手指送院救治 現場遺風車鋸

A worker suffered a finger amputation in a circular saw accident at a construction site in Central

2025年8月20日

美利道與琳寶徑交界一個地盤內,一名工人工作期間,不慎遭風車鋸鋸斷右手食指。消息指,事發時一工人正將風車鋸遞予另一位工人, 惟當時風車鋸仍然開動,工人意外觸碰到,結果被鋸斷手指。

赤鱲角工地金屬構築物塌下致一死一傷

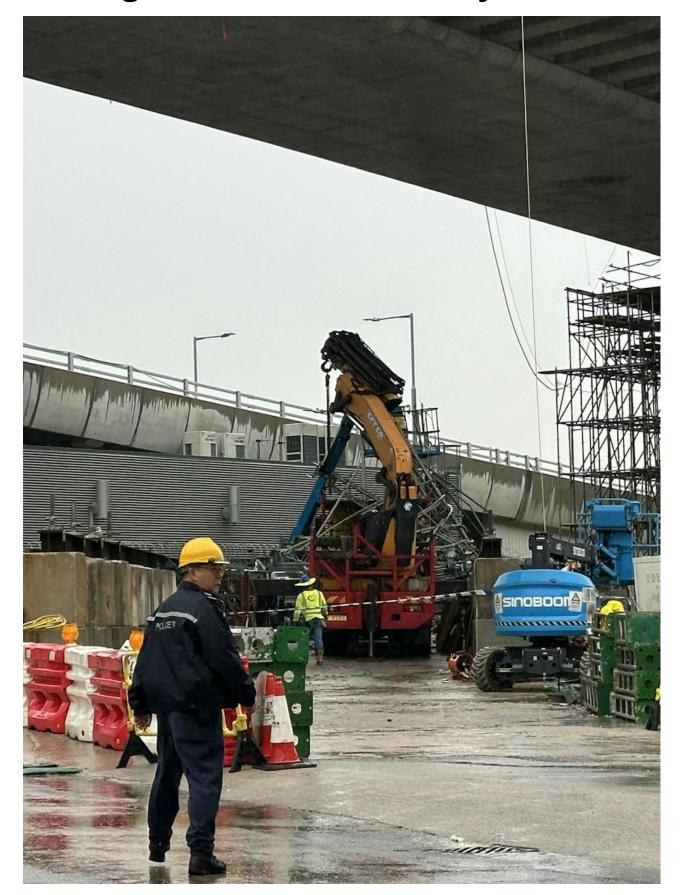

A metal structure collapsed at a construction site in Chek Lap Kok resulting in one dead, one injured

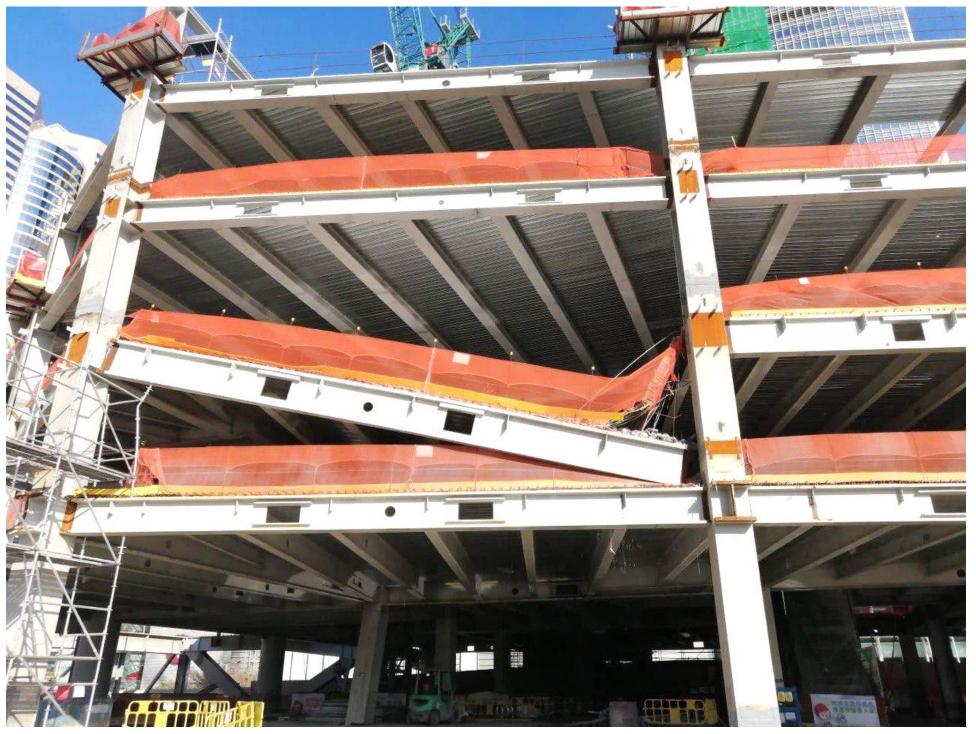

資料來源: HK01

2025年7月10日

赤鱲角一地盤發生致命工業意外,據悉一個猶如「龍門架」高大的鐵製工作平台倒塌,同時有一支約12米長、重4噸的工字鐵墮下,擊中兩名燒焊工人,造成一死一傷。

建造業安全意識問卷調查2024 Survey on Safety Awareness 2024

主題:影響建造安全的因素

Topic: Factors Affecting Construction Safety

Q: Please rate the impact of the following factors for implementing construction safety?

*以下是首6個影響建造安全的因素

*Here are the Top 6 Factors that affect construction safety

Please rate the impact of the following factors for implementing construction safety	請根據以下因素選擇你認爲對執行建造安全 的影響程度	平均分 (1 = 沒有影響: 5 = 非常影響) Average Score (1 = No Impact; 5 = Highly Impactful)			
		總受訪者 Total Respondents	工友 Workers	前線管理人員 Frontline Supervisors	持份者 Stakeholders
Culture of rushed construction works schedules	1. 建造工期趕急的催工文化	3.58 (1.14)	3.30 (1.15)	1 3.92 (1.09)	4.18 (0.83)
Attitudes of frontline and management personnel	2. 前線人員及管理人員的心態	2 3.56 (1.12)	3 3.31 (1.12)	3.71 (1.08)	2 4.14 (0.89)
Ignoring safety method statements	3. 忽略安全施工方案	3.54 (1.15)	2 3.36 (1.17)	3.61 (1.18)	3 4.00 (0.91)
Overlooking actual construction methods in design stage	4. 設計忽略實際施工方法	4 3.50 (1.10)	4 3.32 (1.13)	4 3.72 (1.11)	4 3.88 (0.89)
Senior management's approach and attitude towards safety management	5. 高層參與安全管理的方式及態度	3.49 (1.12)	3.32 (1.16)	2 3.73 (1.05)	3.84 (0.95)
6. Adverse weather conditions and site conditions	6. 惡劣天氣工地環境	3.47 (1.11)	1 3.39 (1.15)	3 3.72 (1.09)	3.58 (0.96)

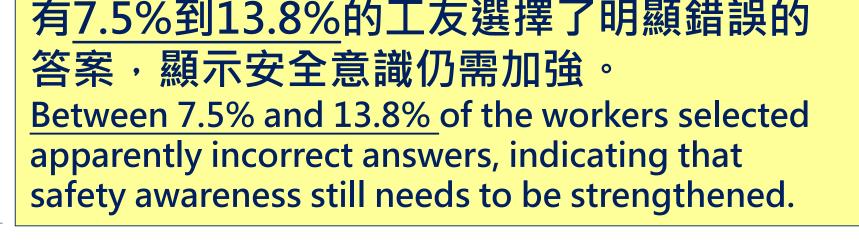

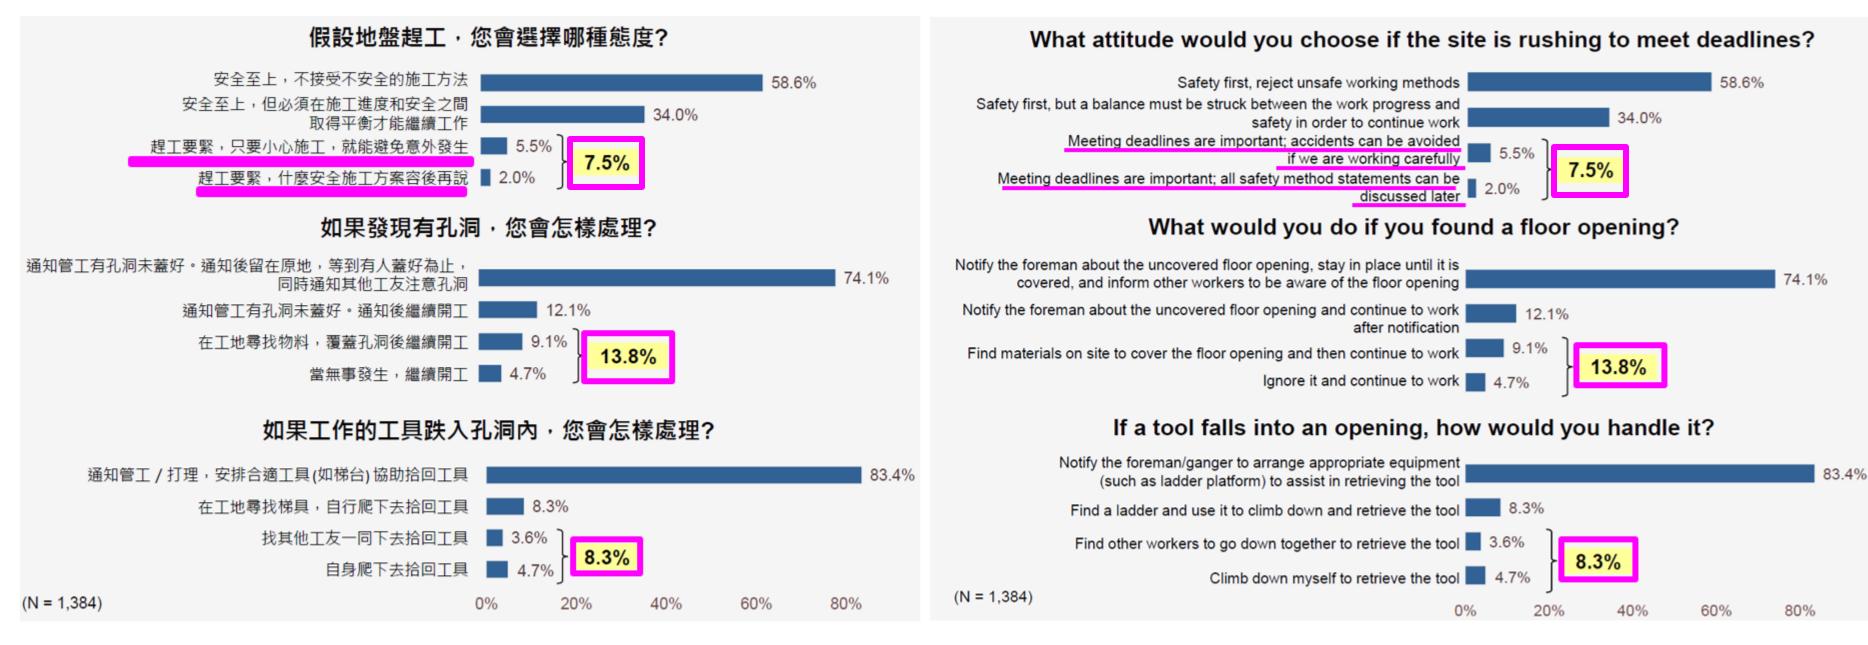

建造業安全意識問卷調查2024 Survey on Safety Awareness 2024

主題: 工友情景題

Topic: Scenario-based Questions for Workers

Source: Draft Final Report for Survey on Safety Awareness for Construction Industry Council

建造業安全意識問卷調查2024 Survey on Safety Average Survey on Safety Awareness 2024

主題: 工友開工習慣

Topic: Workers' Work Habits

問題:請選擇你開工前的習慣(可選擇多於一項)?

Q: Select your Habits Before Starting the Works (May select more than one)?

Choices of habits before starting the works

- Observe the conditions of the workplace and confirm that it is safe before starting work
- Ensure there is a safe working procedure before starting work
- Ensure the use of appropriate personal protective equipment (PPE) before starting work
- Ensure safety training has been completed before starting work

Only Selected this Habit (4.7%)

Follow the order arranged by the foreman/ganger

Only Selected this Habit (3.3%)

Proceed the work based on working experience

開工前的習慣的選項

- 觀察工作地點情況,安全才開工
- 確保有安全施工程序才開工
- 確保使用合適個人防護裝備才開工
- 確保開工前接受安全培訓

按工作經驗正常施工

單選這一個習慣 (4.7%)

推算Calculation

*註冊建造業工人數目(2024年高參與水平工友): 大約160,000人 Registered Construction Workers (Heavily Engaged Workers in 2024): about 160,000

若果問卷數據代表整體建造業界工人:

If the survey data represents all construction workers in the industry:

160,000 X 4.7 % = 7,520人

大約有7,520位工人只「聽從管工/打理安排」

Around 7,520 workers only "Listen to Foreman / Gangers"

160,000 X 3.3 % = 5,280人

大約有5,280位工人只「按工作經驗正常施工」 Around 5,280 workers only "Based on Working Experience"

訓練好工頭

Train up the Ganger properly

- 分包商訓練好揸Fit人 Train up the "揸Fit人" by Subcontractors properly
- 總承建商訓練好座頭/區長 Train up the Block Foreman / Area Foreman by Main Contractors properly
- 顧問公司訓練好駐工地人員 (RSS) Train up the Resident Site Staff ("RSS") by Consultants properly

SAFETY BEYOND COMPARE

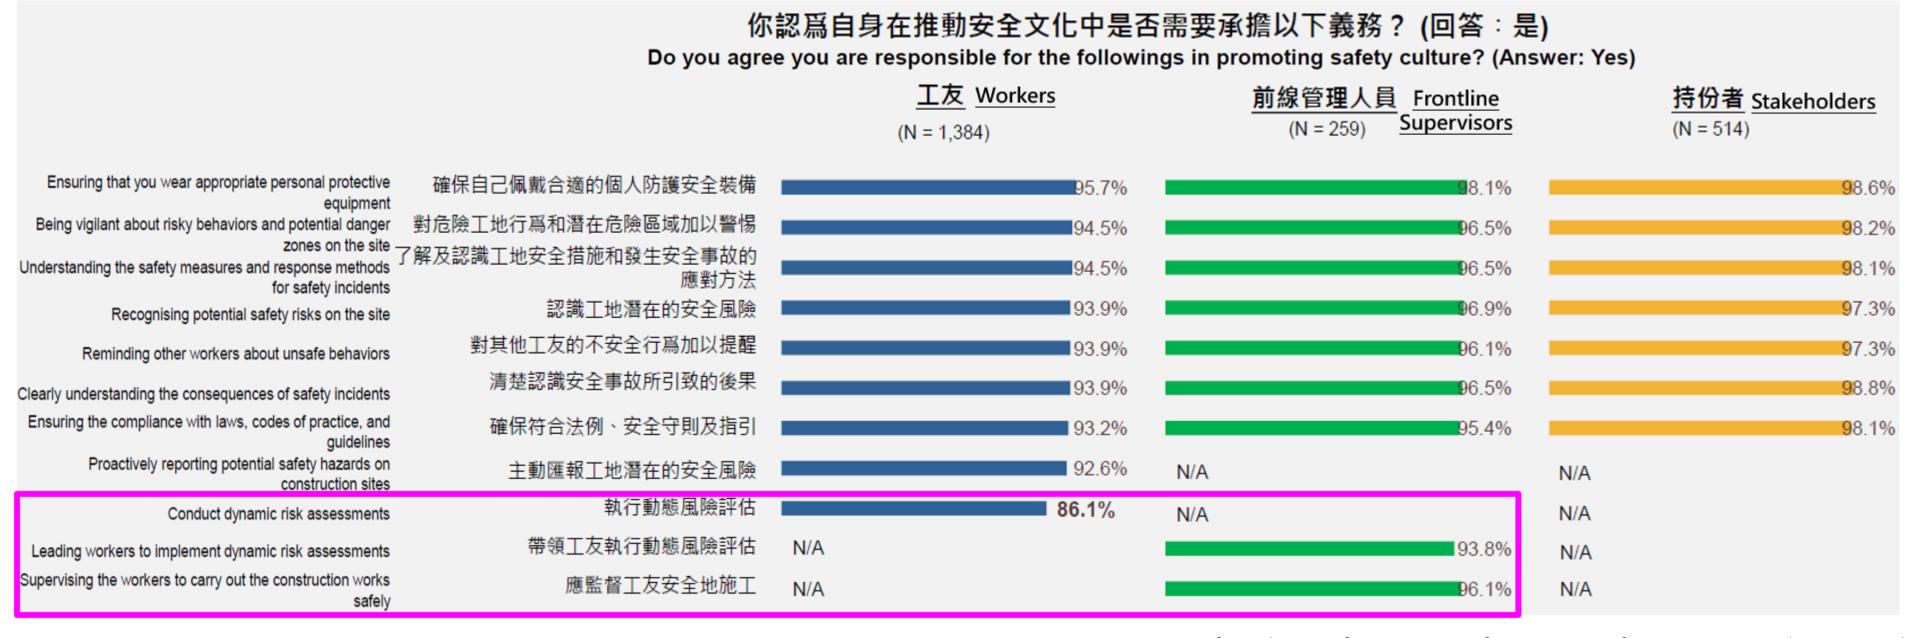

建造業安全意識問卷調查2024 Survey on Safety Awareness 2024

主題: 建造安全文化 - 自身義務

Topic: Construction Safety Culture - Obligation

- 約 14% 工友認為沒有義務執行「動態風險評估」
 - About 14% of workers think they are not obliged to "Implement Dynamic Risk Assessments"
- 約<u>6%</u>前線管理人員認為沒有義務帶領工友執行 「動態風險評估」
- About 6% of frontline supervisors think they are not obliged to "Leading to Implement Dynamic Risk Assessments"
- 約 4% 前線管理人員認為沒有義務「監督工友安全地施工」
- About 4% of frontline supervisors think they are not obliged to "Supervising the Workers to Carry Out the Construction Works Safely"

主題: 提升安全文化的誘因 Topic: Enhancement of the Safety Culture Factors

智愛•盡責

SMART AND CARE, SAFETY BEYOND COMPARE

◆ 建築設計安全
Design for Safety ("DfS")

- 工具箱訓練 (針對性)
 Toolbox talks (Specific)
- ▶ 前線人員安全表現紀錄計劃
 Frontline Personnel Safety Performance
 Recording Scheme
- ◆ 安全智慧工地系統 Smart Site Safety System
- ➢ 絕大部分受訪者同意引入建築設計安全、建立鼓勵及表揚制度,及提供安全培訓可提升本地建造業安全文化,工務或公私營工程之間的分別並不明顯。
 Most respondents concurred that incorporating Design for Safety (DfS), encouragement and praise, as well as the provision of safety training, could enhance the safety culture within the local construction industry. Results suggested that the distinction between public and private projects was minimal.

Questions	問題	<u>工友</u> <u>Workers</u> (N = 1,384)	<u> 前線管理人員</u> <u>Supervisors</u> (N = 259)	<u>持份者</u> Stakeholders (N = 514)
Do you believe that <u>incorporating Design</u> <u>for Safety (DfS)</u> can enhance the safety culture? (Answer: Yes)	你認為 引入建築設計安全 可提升安全文化嗎? (回答:是)		93.4%	92.2%
Do you believe that recording good safety performance of frontline personnel in the construction industry can enhance site safety culture through encouragement and praise ? (Answer: Yes)	你認為 記錄良好安全表現的建造業前線人 員,以鼓勵及表揚方式 以提升工地安全文 化嗎?(回答:是)	94.4%	95.0%	94.4%
Do you believe that <u>providing safety</u> <u>training</u> to frontline personnel can improve their safety performance? (Answer: Yes)	你認為 提供安全培訓 ,可提升工地前線人員安全表現嗎? (回答:是)	95.4%	91.9%	95.9%
Do you believe that adopting a <u>Smart Site</u> <u>Safety System (4S)</u> can enhance safety culture on site? (Answer: Yes)	你認為採用 安全智慧工地系統 (4S) ,可提升工地安全文化嗎? (回答:是)	87.8%	80.3%	86.0%

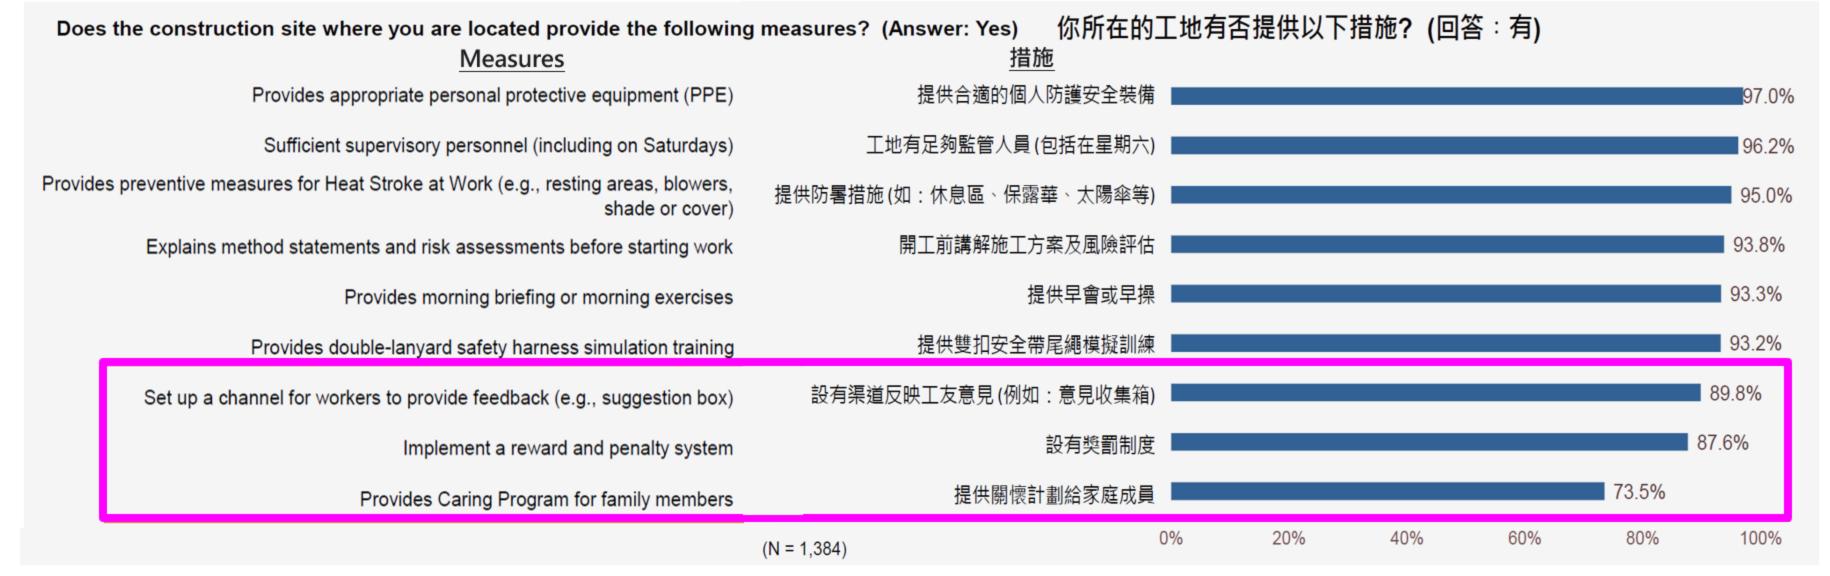

Source: Draft Final Report for Survey on Safety Awareness for Construction Industry Council

主題: 工友所獲的地盤措施 Topic: Measures Implemented at the Workplace for Workers

- ◆ 工具箱訓練 (針對性)
 Toolbox talks (Specific)
- ◆ 「3點3」安全講座 Safety sessions at 3:15pm
- ▶ 有超過九成的工友表示,其所在工地有提供合適的個人防護安全裝備、駐有足夠的監督人員、備有防暑設備等六種措施。 More than 90% of the workers stated that their workplace has provided appropriate PPE, sufficient supervisory personnel, and preventive measures for heat stroke, among six other types of measures.
- 方一至兩成多的工友指工地缺乏表達意見渠道、獎罰制度或家庭關懷計劃。
 However, around 10% to 20% of the workers indicated that their workplace lacked channels for providing feedback, a rewards and penalties system, or a caring programme for family members.

保障工友健康的措施

Health Protection Measures for Workers

01

「智能健康站」

讓工友在任何時間檢查身體狀況,包括:體溫、血壓、 血氧、身高體重及BMI測試,以確保身體狀況符合工作 要求。

02

地盤護士及「健康專區」

聘請地盤護士或職安助理定期為每位員工進行一系列的健康檢查(例如:體溫、血壓及BMI測試等等),並提出健康建議,以便工友預防疾病並在有需要時提早介入治療。

03

自助式「健康檢查站」

在工地入口處設置自助式「健康檢查站」,讓工友可以 每天開工前自行了解自身的體溫及血壓等狀況。

保障工友健康措施

Health Protection Measures for Workers

伸展運動

04

每天工作之前做一些伸展運動(例如:八段 錦),培養工友養成恆常運動的習慣,使工 友自身肌肉易於適應工作,減少受傷的機會。 05

「平衡木」測試

在開工前進行「平衡木」測試,以測試其平衡力及當天有否心神恍惚的情況,以確保工友是適合進行相關工作(例如:棚架或高空工作)。

註冊建造業工人醫療體檢計劃

Medical Examination Scheme for Registered Construction Workers

註冊建造業工人醫療體檢計劃 - 工地體檢外展服務

專業醫護人員會親身到參與工地為工友進行身體檢查,而每名工友只需付港幣\$10。檢查項目包括:<u>血壓及脈搏量度、BMI測試、血糖、</u> 膽固醇、肝功能、腎功能、尿酸等,並有醫護人員解釋體檢報告,希 望工友更了解自身狀況及早發現潛在健康問題。

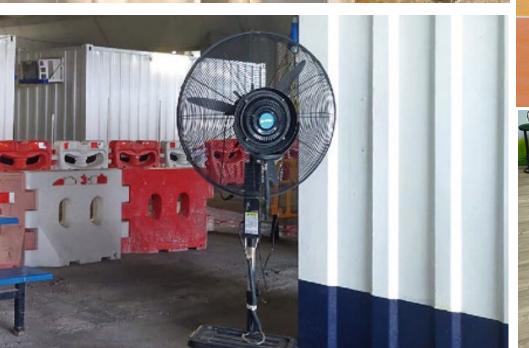

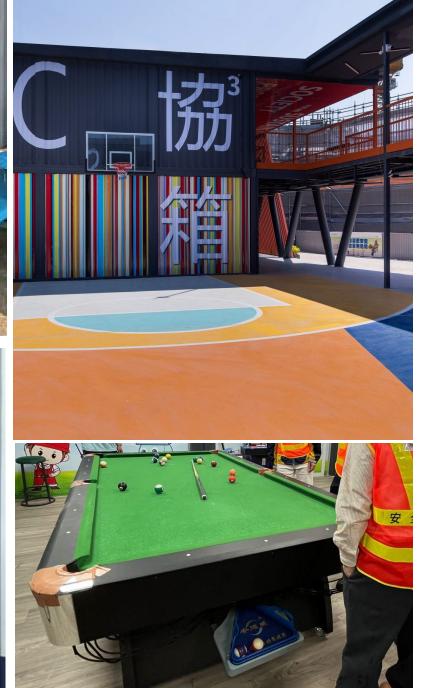

立即申請

保障工友健康措施

Health Protection Measures for Workers

07

休息設施

鄰近工人工作的地方,提供遮蓋、通風良好及足夠照明的休息設施,並且設有座椅、桌子、垃圾箱、洗手設施及飲料設施。

08

飲水設施

提供足夠的飲用水,包括每20名工人有最少設置1個飲水裝置,而每個飲水裝置至少提供20公升水的容量。

09

防暑措施

設置流動冷風機或噴霧風扇;提供製冰機或冷凍櫃以 存放冰涼毛巾、冰袖、飲品等協助工人消暑。

10

<u>在可行的情況下</u>,提供康樂設施,例如:

可提供球類活動設施,如籃球架、桌球枱,以促進工友身心健康。

保障工友健康措施

Health Protection Measures for Workers

合資格急救員

11

根據《建築地盤(安全)規例》,30 名但不足100 名工人的情況須有至少1 人為合資格急救員;100 名或以上工人的情況須有至少2 人為合資格急救員。

12

急救設備

除了急救箱,建議工地可設置自動心臟除顫器 (AED),在緊急情況下,遇到心臟驟停患者時,配合使用AED,以加強拯救生命的效率。
