

FOR IMMEDIATE RELEASE

47 Industry Frontline Supervisors Recognised at CIC's Inaugural "Outstanding Frontline Supervisor Award"

Hong Kong • 19 November 2025 - The inaugural "Outstanding Frontline Supervisor Award" (Award) organised by the Construction Industry Council (CIC) has successfully concluded, with its presentation ceremony took place at CIC–Zero Carbon Park. The Award honoured the frontline supervisors who have demonstrated excellence in trade management, professional development, safety promotion and social contribution. They have made significant contribution to the development of various outstanding infrastructure projects in Hong Kong that help build it into a more liveable city.

The Award consists of three categories:

- **Outstanding Specialist Trade Contractor / Subcontractor Frontline Supervisor**
- **Outstanding Contractor Frontline Supervisor**
- **Excellence Award**

A total of 47 award recipients, including 36 outstanding frontline supervisors from contractors, specialist trade contractors and subcontractors, together with 11 merit awardees, were selected through a stringent evaluation process and assessed by an industry-led judging panel based on four major criteria:

- **Trade Management:**
Promote collaboration across trades, uphold the principle of "Inspection for Protection and Smooth Handover" and proactively apply innovations and advanced technologies
- **Professional Development:**
Obtained professional qualifications in respect of craftsmanship and safety, as well as construction-related qualifications
- **Safety Promulgation:**
Effectively ensure workers implement safety measures
- **Social Contribution:**
Nurture new talents for the industry and participate in volunteer services

Ir Prof. Thomas HO, Chairman of the CIC, highlighted that frontline supervisors play a crucial role in connecting all different functions on construction sites, ensuring that projects are completed smoothly, safely and efficiently. Therefore, the CIC launched the Award to honour outstanding frontline supervisors for their remarkable performance in leading frontline workers by allocating tasks appropriately, and safeguard construction safety.

Ir Albert CHENG, Executive Director of the CIC, emphasised that the Award is not just a personal honour, but also affirms the dedication of professionals across the industry. This

year, the CIC focuses on advocating for professionalism. By recognising outstanding frontline talents, the CIC aims to encourage the industry to adopt best practices, foster a positive culture and enable the spirit of “Craftmanship, Craftsman-soul, Craftsman-skill and Craftsman-action” to shine through in construction.

Frontline supervisors are the backbone of the construction industry. Their professionalism and leadership ensure site safety, enhance productivity, and drive the industry towards higher standards. Through this Award, the CIC aims to deepen public understanding of the vital role and contributions of frontline supervisors, reinforce their professional status, and inspire more practitioners to pursue excellence and work together to build a better Hong Kong.

About the Construction Industry Council

The Construction Industry Council (CIC) was formed in 2007 under the Construction Industry Council Ordinance (Cap. 587). The CIC consists of a chairman and 24 members representing various sectors of the industry including employers, professionals, academics, contractors, workers, independent persons and Government officials.

The main functions of the CIC are to forge consensus on long-term strategic issues, convey the industry's needs and aspirations to the Government, provide professional training and registration services, and serve as a communication channel between the Government and the construction industry.

Please visit www.cic.hk for further details.
