System Name : CWRG and CIC DAR Application
Version : 2.101.22.1
Release Date : 28th December 2020

Release Notice

This release contains several enhancements and changes as below:

1. Enhancements and Changes in CWRG

For the details of the changed functions, please refer to the updated [User Manual](#).

Types	Module Name	Summary
New	Invalid DAR detected email	An email will be sent to contractors when CWRS detected some invalid attendance record(s) under their contract(s)
Enhancement	Download DAR	“Raw DAR” definition update When a daily attendance record is submitted, the CWRS will archive the relevant raw data. Data uploaded after submission will be filtered out.
Enhancement	Download DAR	“Submitted/ Consolidated DAR “definition update Consolidated attendance records can be downloaded only after submission

2. Compatibility for CIC DAR Application

System	Android Version
Android	Supported ver. 4.4.2 to ver. 10.0
