

# Release Notes

**Project Name** : Construction Workers Registration System (CWRS)  
**System Name** : CWRS “DARs” Android Application (DAR App)  
**Version No.** : 2.5.0.15  
**Release Date** : 28 February 2024

## Release Notice

This release contains several enhancements as below:

### 1. Enhancements and Features

Type	Section	Features
Enhancement	Cyber security	Enhance cyber security and protect users from cyber-attack by supporting Transport Layer Security (TLS 1.2)
Enhancement	Upload Device Log	When users encounter problems and need assistance, where necessary, CWRS Helpdesk may ask the user to upload the device log by providing the user with a 5-digit One-Time Password (OTP)
Enhancement	Update Notification	Notify users of the updated version of CIC DAR App available for download and installation

### 2. Compatibility for CWRS

#### 2.1 CIC DARs Application

System	Android Version
Android	Support Android 4 to Android 13

### 3. Update Procedures

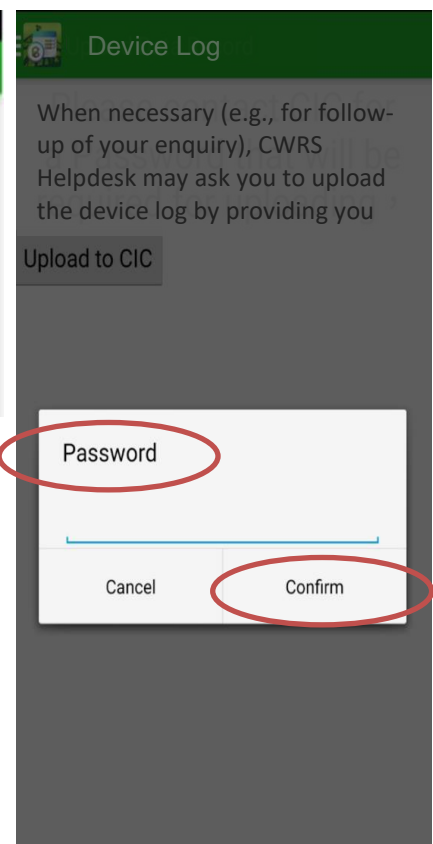

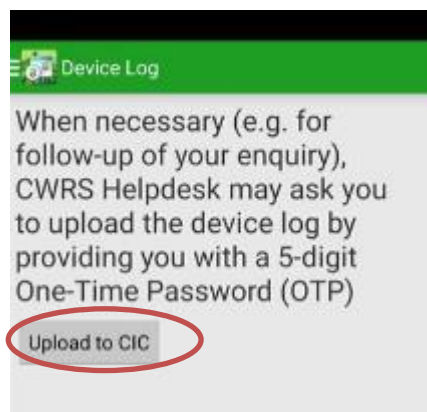

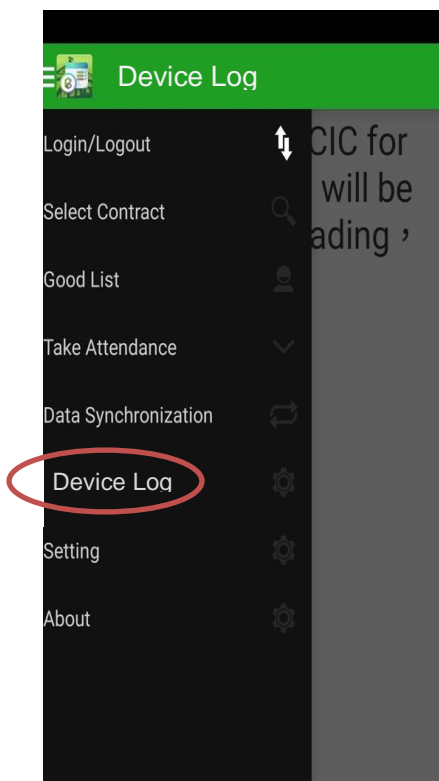

User is recommended to follow the steps outlined in [Installation Guide](#). The [Frequently Asked Questions](#) (FAQs) are also uploaded onto the CIC’s website ([www.cic.hk](http://www.cic.hk)) for reference.

## 4. Use of New Features

### 4.1 Upload Device Log

If a user encounters problems when using the DAR App, he/she may provide the screen capture(s)/video(s) and email to CWRS Helpdesk at [cwr\\_helpdesk@cic.hk](mailto:cwr_helpdesk@cic.hk) or contact CWRS Helpdesk at 2100 9863 for assistance. CWRS Helpdesk may request for the device log for follow-up and will provide the user with a 5-digit One-Time Password (OTP) for uploading the log to the CIC via the DAR App.

- Click  in the DAR App's main menu in the upper left-hand corner to open the menu bar;
- Select [**Device Log**];
- Click [**Upload to CIC**];
- Input a 5-digit One-Time Password (OTP), then click [**Confirm**];
- Device log is sent to CIC.

## 4.2. Update Notification

- a) When there is a new version of DAR App, the following notification “有可用更新，請下載更新” will be appeared.
- b) Users can download the latest version by clicking the link, then click [Update App]
