

FOR IMMEDIATE RELEASE

**The Construction Industry Council Officially Launches
CIC Construction Digitalisation Award 2021 and
Recognises Organisations and Professionals via
Celebration of BIM Achievement 2020**

Hong Kong · 10 November 2020 – The Construction Industry Council (CIC) is delighted to host the CIC Construction Digitalisation Award 2021 Launching Ceremony and Celebration of BIM Achievement 2020 virtually today.

Speaking at the launching ceremony, Mr. CHAN Ka-kui, Chairman of the CIC said, “Even if digitalisation has not been commonly adopted, it has received increasing attention in the construction industry with a growing trend of digital technologies such as Building Information Modeling (BIM), and Virtual Reality/ Augmented Reality (VR/ AR), Artificial Intelligence (AI), Internet of Things (IoT) as well as Integrated Project Delivery (IPD) etc. are also gaining entry to the industry. With an aim to enhance the continuous development of digitalisation in the industry, the CIC has decided to hold the inaugural CIC Construction Digitalisation Award in 2021. Riding on the growing popularity of BIM, the Celebration of BIM Achievement 2020 is a kick-off event of the CIC Construction Digitalisation Award to recognise organisations and practitioners who drive and adopt BIM in the industry.”

The CIC Construction Digitalisation Award 2021 aims to recognise outstanding local projects and local organisations for their contribution in the promotion and adoption of digitalisation tools and workflows, and in bringing about innovation in these areas to improve productivity, quality, sustainability and safety, with measurable KPIs. The Award is divided into two categories, namely “Project” and “Organisation”. The “Organisation” category is further divided into six sub-categories, consisting of Client (Government, Public Client and Developer), Consultant, Contractor Category A, Contractor Category B, Training/ Research Institute and Start-up Company. Gold, silver, bronze awards and merit certificates are set up for each project and each sub-category of organisation. The Award is now open for submission, and the deadline is 30 June 2021.

The results of the Celebration of BIM Achievement 2020 were announced and the recipients were invited to share their valuable experiences and achievements on BIM in the ceremony. The celebration included three categories of achievement, namely “BIM Projects 2020”, “BIM Organisations 2020” and “BIMers 2020”. Participants aged below 30 are recognised as “Young BIMers 2020”. Although this is the first ever Celebration of BIM Achievement organised by the CIC, it has received an enthusiastic reception from the industry, showing that BIM has been successfully adopted and implemented in Hong Kong.

Lists of Winners - Celebration of BIM Achievement 2020 (Listed in no particular order):

BIM Projects 2020
Advanced Manufacturing Centre (AMC)
BIM Adoption and Sustainable BIM FM Platform for Shanghai Street 618 Preservation and Revitalisation
BIM Horizontal Harmonization for BIM/GIS Integration
Central Market Revitalisation Project
Construction of Building Information Model and Asset Information Inputting for EMSD Headquarters
Contract 3801 - APM and BHS Tunnels on Existing Airport Island
Digital Twin for HKUST Campus
DSD Contract DC/2018/05 - Relocation of Sha Tin Sewage Treatment Works to Caverns – Site Preparation and Access Tunnel Construction
First Stage of Tseung Kwan O Desalination Plant
Global Switch Data Centre (Design and Build)
Heritage Information Modelling of Peak Police Station
Housing Authority BIM Standards and Guidelines

InnoCell
Kai Tak Sports Park
Neuron: AI smart building platform
RFID-Enabled Building Information Modeling (BIM) Platform for Prefabrication Housing Production in Hong Kong
Three-Runway System (3RS)

BIM Organisations 2020
Advanced Construction Information Development Limited
AECOM
Airport Authority Hong Kong
Architectural Services Department, HKSARG
Arup
Electrical and Mechanical Services Department, HKSARG
Gammon Construction Limited
Global Virtual Design and Construction Limited
Hong Kong Housing Authority, HKSARG
Ronald Lu & Partners
Strategic Building Innovation (SBI) • bimSCORE
The Hong Kong University of Science and Technology (HKUST BIM Lab)
Vircon Limited
WSP Hong Kong Limited
Yau Lee Construction Company Limited

BIMers 2020 and *Young BIMers 2020
Ir Steve CHAN
Dr. Calvin KEUNG
Ir Ken MAO
Ir Dr. Llewellyn TANG
Mr. Billy WONG

About the Construction Industry Council

The Construction Industry Council (CIC) was formed in 2007 under the Construction Industry Council Ordinance (Cap. 587). The CIC consists of a chairman and 24 members representing various sectors of the industry including employers, professionals, academics, contractors, workers, independent persons and Government officials.

The main functions of the CIC are to forge consensus on long-term strategic issues, convey the industry's needs and aspirations to the Government, provide professional training and registration services, and serve as a communication channel between the Government and the construction industry.

Please visit www.cic.hk for further details.
